

MOONLIGHT

It has a long and thin hanging semi-solid body which can be set at any place.

Usually ON/OFF
Control the illumination with the button ON/OFF on the remote control

Automatic ON/OFF
If it's dark in the room, the light will turn on automatically.
The light will turn off automatically, if you do nothing within 30 minutes.

Manual Mode
You can adjust the wax and wane of the moon manually.

Auto Mode
The wax and wane of the moon change automatically every 5 seconds.

⚠ Notes

Must Read:

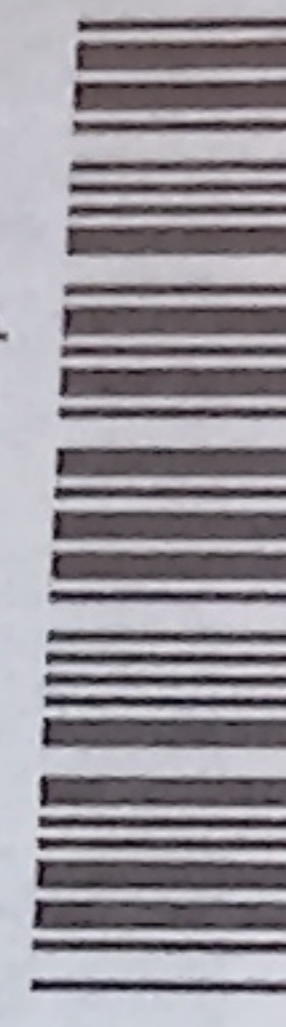

Please change the batteries by the protector itself.
[A wrong battery may result in heating, breakage or leakage. Pay attention to:]
Never use a rechargeable battery.
Do not mix new batteries, semi-used batteries and various batteries in use.
Ensure correct polarity in use.
Do turn off the light and take the battery out for long-term disuse.
If the leakage from the battery gets into eyes, rinse thoroughly with water and contact a doctor. Rinse with water if the leakage contacts with skin or clothes.
Keep away from children under three years old after use.

Notes on Use

- ★ If the light cannot be turned on or the remote control loses its due response, please change the batteries for new ones.
- ★ The carton and paper over the product are packing materials. After unfolding, please recycle or discard with designated method.
- ★ Waste battery shall be discarded with designated method.
- ★ Do not decompose or switch the battery, or breakdown and breakage may result.
- ★ Do not subject the battery to impact, collision, fling and other violent action, or breakdown and breakage may result.
- ★ Please read the manual carefully and keep it well.
