The.Pillow needs 10-15 minutes before the 8 heating elements are fully heated.

7

There are 3 settings:

-  35 - 38 °C
-  38 - 40 °C
-  40 - 45 °C

Only the outer cover can be washed in the washing machine at 30 degrees. Carefully press the on/off button out of the outer cover. Do not use a dryer!

8

 When you switch The.Pillow off and leave The.Powerbank connected, the button flashes from time to time (standby-mode).

9

Inside The.Powerbank bag is a water repellent wallet. It's not necessary to put The.Powerbank in it when The.Pillow is used indoors. Handy when you use The.Pillow on a boat.
