## 2. Product information

2.1 Part Name

Machine

Dust Box

Mop

Adapter

User Manual

2.2 Structural introduce

Machine

Switch Charging Socket

Dust Box

Model	SP-RVC150		
Work Voltage	14.8V	Rated Input Voltage	19.0V
Rated Power	16W	Rated input Current	0.6A
Adapter			
Input	100-240V~50/60Hz 0.5A		
Output	19V-0.6A		
Battery	Li-ion 2000mAh		

## 2.3 Technical Parameters

\*It's without any further notice if technology or design change.

## 3. Product usage

#### 3.1 Attention

1. Please remove the power cord, thread and other debris scattered on the ground before using, avoid to trip or wind the machine.

2. Objects with less than 6CM such as bed furniture bottom may cause stuck when using, please pay special attention to such areas when cleaning.

3. Before using this product on the carpet, please remove the two sides brushes and roll the carpet's tassels.

4. This product can be used on wood floor, tile floor, tile floor and cement floor and short hair carpet (less than 1CM).

## 3.2 Quick Actions

 Machine Charging Charge machine with adapter. Red light flicker, in charging. Green light on, charging finish.

Please keep charging the machine for 8H the first time.

- Turn on Machine
  Turn on power switch.
  Button light on.
  Open the machine.
  ("I" turn on, "O" turn off)
- 3. Start cleaning

Press button **O**, start auto clean.

#### **Cleaning mode**

Robot cleaner works efficiently with intelligent control system. It can avoid falling down from stairs automatically by infrared sensors. In order to provide high efficient cleaning performance, it works in the following 3 modes and exchange automatically:

#### 3.3 Mop function (Dry/wet clean)

This machine with mop function, directly put the mop on the bottom side of machine. Wet the mop, and put under machine.

#### 3.4 Usage of side brush

1. Side brush

2. Using instruction

1. Right and left brush are not interchangeable, distinguish by the center color if the side brush.

2. In order to ensure good use effect, users should clean the surrounding hair and other debris in time after using the machine for a period of time.

3. The users should change the side brush according to the diagram left and right. (Use the screwdriver to remove the fixed screw and side brush, then fix the side brush for replacement).

4. For good cleaning effect, please use the machine carefully.

## 4. Maintenance

## 4.1 Dust box

Take out dust box, clean it.

Use

water to clean to clean the dust filter.

Dry the dust box under the sun.

Notice: please clean the dust in time after using. Ensure good cleaning effect.

## 4.2 MOP

Please clean the mop after using.

4.3 Suction inlet & Side Brush

Clean suction inlet with mop if its with much dust.

Take out the side brush, and clean surrounding debris.

### 4.4 Other parts

Clean the cliff sensors to keep the sensitivity.

Clean the gap between cover and bumper,

Clean universal, reduce noise and hair winding.

Front Bumper

ensure good effect.

Remove universal wheel. Clean runner and spindle.

Clean the wheel, reduce noise and hair winding.

# 5. Malfunction Elimination

No.	Situation	Possible reason	Solution
1	Machine not work.	Machine not turn on.	Turn on power switch.
2	Machine cannot charge.	Run out of battery.	Charge with adapter.
		Charging contact fail.	Insure adapter contact OK.
3	Machine always	Cliff sensor is dirty.	Dry clean the sensors.
	backwards.		
4	Machine can't be	Front bumper problem.	Slight hit the bumper.
	backwards.
