RIDR LIGHTS

IMPROVE VISIBILITY

RIDR Lights are a revolutionary 2-in-1 rear bike light. With 5 strong LEDs and the secondary laser lights, you create your very own cycle-safe-zone and ensure maximum visibility.

SAFETY

5 strong LED lights provide 150 lumen of visibility. Combined with the unique laser lights cyclists enjoy extra visibility.

CONVENIENCE

One size fits every bike. Thanks to the easy mount the light is attached and removed within seconds. IPX5 protects it from rain and water.

ENVIRONMENT

The light is USB rechargeable. No more disposable batteries. Less than 2 hours of charging gives you up to 9 hours of use. The two button design saves battery.

TECH SPECS

- 5 LED diodes
- 150 Lumen
- 4 Laser lines
- Side visibility
- Easy mount silicon strap
- IPX5 waterproof
- Shock absorbing
- Fits all seatposts (3-inch)
- Battery 500 mAh
- 2 button design
- 2 hours charging time
