

Local storage	
Data collect in internal memory (Yes/No)	Yes
Type of data collected in internal memory	Health check data: - (Heart Rate, Blood Oxygen, Stress, Sleep Tracking, HRV, PAI, Emotion, Fatigue, Breath Rate, Activity, Cycle Tracking) Personal information: (Gender, Age, Height, Weight, Activity Target, Step length,) Preference setting data: (Time format, Heart rate and blood oxygen detection, DND, Wake up reminder, Water, Sedentary reminder, Notification, Weather) Dial pushing data Sport mode pushing data
Data file format stored in internal memory	.bin
How often is the data collected (Frequency)	Real Time
What is the the devices storarge capacity	nor flash-- 128Mbit
How much data is typically generated per day	10KB
How long is data stored by default	7days

APP storage	
Data collect stored in APP (Yes/No)	Yes
Type of data collected in APP	Health check data: (Heart Rate, Blood Oxygen, Stress, Sleep Tracking, PAI, Emotion, Fatigue, Breath Rate, Activity, Cycle Tracking) Personal information: (Name, Gender, Age, Height, Weight, Activity Target, Step length, contact) Preference setting data: (Time format, Heart rate and blood oxygen detection, Do not disturb mode, Wake up, Water, Sedentary reminder, Notification, Weather) Dial pushing data Sport mode pushing data
Data file format stored in APP	.realm
How often is the data collected (Frequency)	real time
How much data is typically generated per day	10KB
How long is data stored by default	Unrestricted

Server storage	
Data collect stored in server (Yes/No)	YES
Type of data collected in server	Smartwatch firmware package, watch face
Data file format stored in server	Smartwatch firmware package and watch face: .bin
How often is the data collected (Frequency)	Real time
How much data is typically generated per day	It depends on when we have new firmware package or watch face put on server
How long is data stored by default	Unrestricted

Real-time	
Can the product generate data continuously and in real time	Yes, The watch and App can generate data continuously

User access	
How can the user access their own data free of charge	On the App: Settings -> My Profile -> Export Health Records
How can the user obtain a copy of the data	On the App: Settings -> My Profile -> Export Health Records
How can the user request deletion of the data	On the App: Settings -> Withdraw Consent & Delete User Profile or remove the app from your smartphone directly

Technical access	
What technical solutions exist for access (e.g., app, portal, API)	App, API
What are the conditions for use (e.g., login, license, terms of service)	Need 6 pairing code to pair smartwatch and app
Rights and ownership: Are any of the data collected protected as trade secrets or by intellectual property rights? If yes, who is the holder (name and address)	No

Restrictions	
Are there situations where access to data can be denied (e.g., due to EU or national legislation)?	No
