- The light source of this luminaire is not replaceable; when the light source reaches its end of life the whole luminaire shall be replaced.
- The product shall be supplied by an external independent LED driver with at least 5V, 2A SELV output.

## How to use

1. Clean the surface you intend to stick the light strip to.
2. Peel off the backing strip of the adhesive tape.
3. Press and hold the light strip firmly against the surface.

4. Connect the end of the light strip with the LED / USB connector. Make sure the arrows line up for it to function.
5. Connect the USB cable to the USB port or USB wall connection.
6. Remove the tab from the battery compartment of the remote control.
7. Turn on the LED strip light by pushing the ON button on the remote control, pointing it towards the lights.
8. You are now able to use the lights and select your desired light function.
9. Once you have finished using the lights, press the power button to turn OFF, unplug the cables and store in a safe place.

## Shortening the strip

You can cut the light strip to shorten the length. Make sure you cut in the join section and cut away from the ends.

**WARNING:** Attention risk of electric shock! Always unplug the power cord before shortening the LED strip.

## Remote control

1. On/Off switch
2. White light
3. Flash
4. Strobe
5. Fade
6. Smooth
7. Control panel for colour selection
8. Red, Green, Blue colour
9. Increase/ decrease the brightness, fast or slow rate in light modes mode

The colour settings are mixed colours. For this reason colours may vary slightly.

## Changing the remote control battery

1. Using a small screw driver remove the screw on the back of the remote control.
2. The battery compartment is located below the screw. Push and pull the battery compartment simultaneously as shown to remove the battery.
3. Once you have removed the spent battery replace with a 3V battery, type CR2025. The positive terminal must point upwards.
4. Once the new battery has been replaced and the compartment has been pushed back inside the remote control, tighten the screw.

**WARNING:** Button cell batteries can cause serious injury or death if swallowed. Dispose safely! Store batteries out of reach of children.

- Swallowing may lead to serious injury or death in as little as 2 hours due to chemical burns and potential perforation of the oesophagus.
- If you suspect your child has swallowed or inserted a button cell battery, contact your countries emergency department.
- Examine devices and make sure the battery compartment is correctly secured, e.g. that the screw or other mechanical fastener is tightened. do not use if compartment is not secure.
- Dispose of used batteries immediately and safely. flat batteries can still be dangerous.
- Keep batteries out of reach of children.
- Batteries must be changed by an adult.
