

Example: *Discover & imagine with Playmags!*

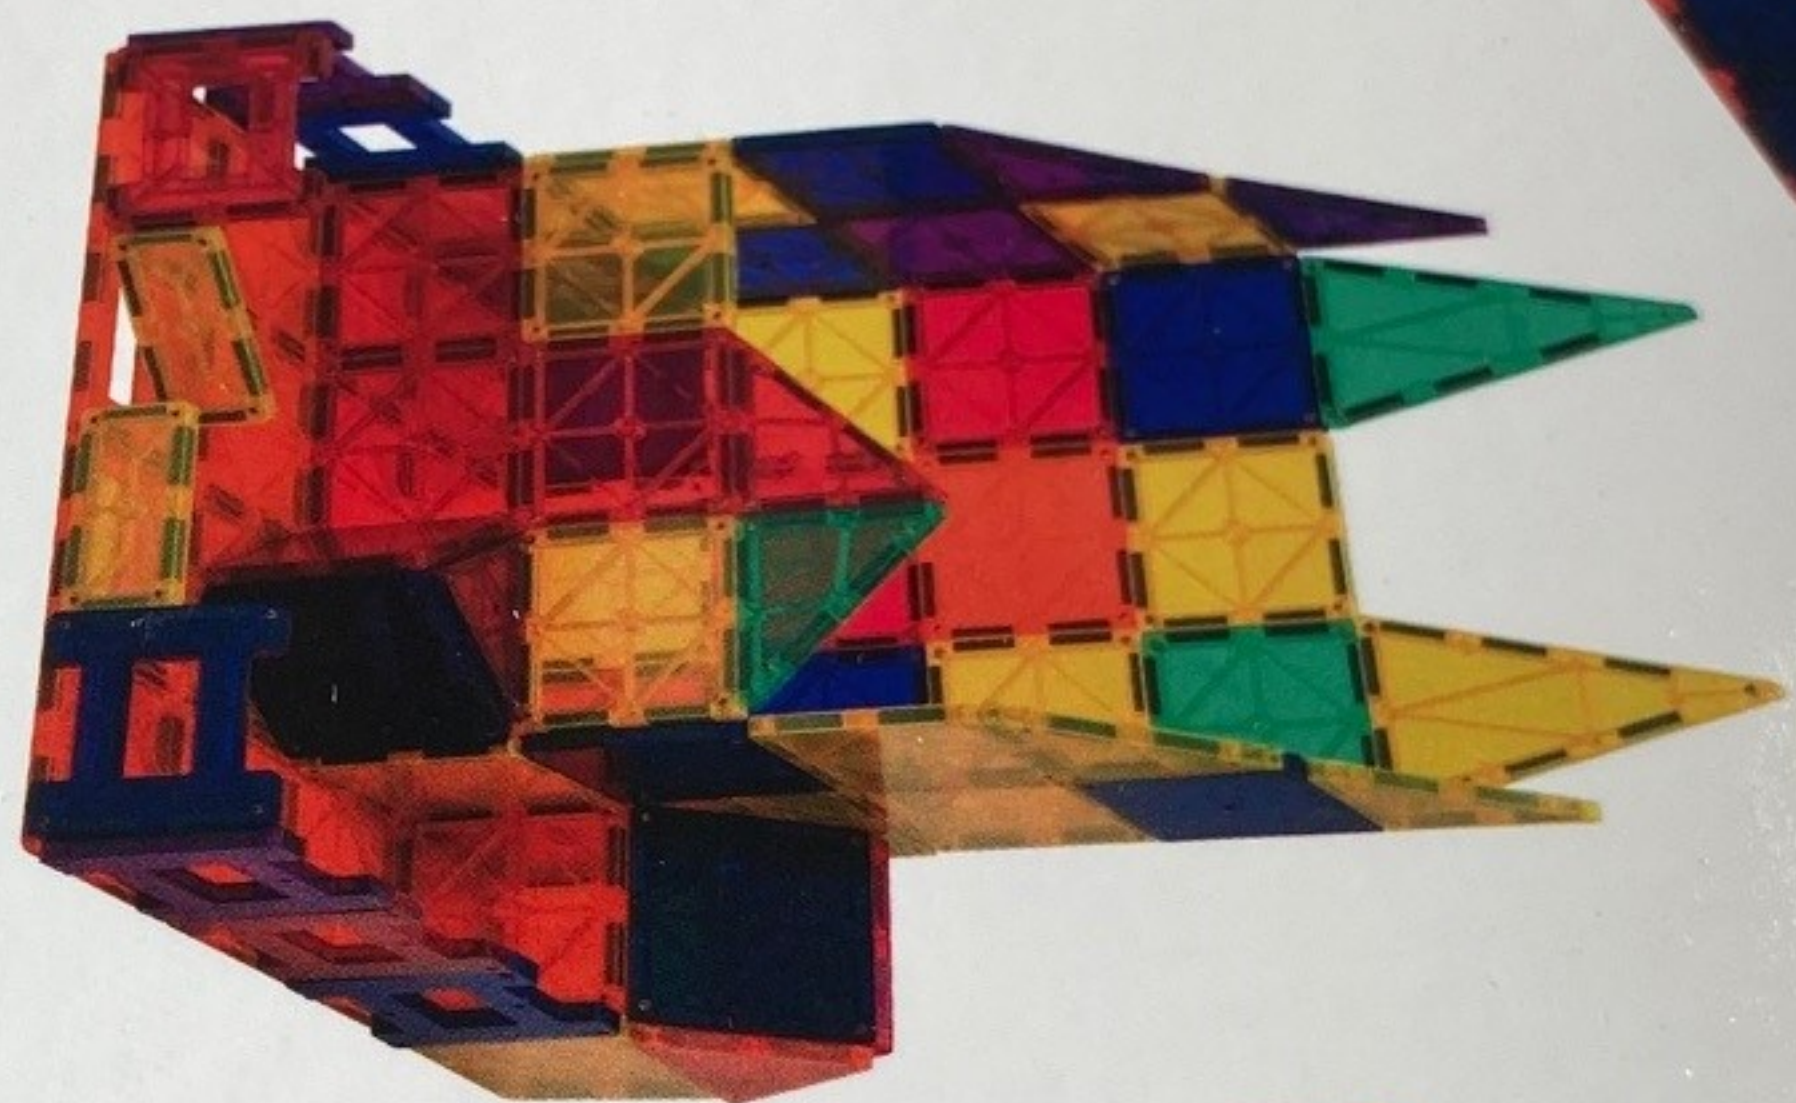

Playmags' building blocks are unique! The magnets attract on all sides, even when flipped around. The new line of Children offers a whole new dimension of contemporary brain-building skill sets.

The new line of Children offers a whole new dimension of contemporary brain-building skill sets. The new line of Children offers a whole new dimension of contemporary brain-building skill sets.

Play is the primary mode of learning for children. Young children love discovering mathematical concepts in the world around them. When a child has the opportunity to take flat objects and successfully construct 3D projects from them, the sense of discovery is very exciting and empowering.

The toy offers hours and hours of fun - children can build various projects and let their imagination go wild with ideas.

Use this as a stand-alone set to create castles, cubes, houses and more or as an add-on to another set for more complex designs and hours of educational fun.
