

Happy vibrator

Battery: 1.5x AA battery, 3 Programmable Memory production voltage: 3.0V
 Motor: 1.5W, Voltage: 3.7V, Current: 200mA, Impedance: 18Ω
 Working Voltage: 3.7V, Current: 150mA
 Operating Current: 100mA, Motor: 1.5W
 Standard Contact: 3.5mm, Working Time: 30 minutes/100%
 Charging Time: 1.5 hours, Charging: 1.5A
 Charging Input Terminal: 2.1mm, Dimensions: 220*42*55mm, 50%
 Item: Charge is required to use, 100% full, 100% full, 100% full
 Full Charger: Full Charge (Closed) 4.0V, 100% full

(USB Charger)

User Manual

1. Make sure the vibrator is fully charged before use.
2. Apply some lubricant to the vibrator and insert the vibrator into the vagina.
3. Press the vibrator on and off button.
4. Press the vibrator on and off button.
5. Press the vibrator on and off button.
6. Press the vibrator on and off button.
7. Press the vibrator on and off button.
8. Press the vibrator on and off button.
9. Press the vibrator on and off button.
10. Press the vibrator on and off button.

USB Charger Instruction

1. Make sure the vibrator is fully charged before use.
