

NOTES

PLEASE READ THE FOLLOWING INSTRUCTIONS CAREFULLY BEFORE USING THE PRODUCT.  
1. The product is intended for use as a toy only. It is not to be used as a medical device.  
2. The product is not to be used in the presence of fire, heat, or other sources of high temperature.  
3. The product is not to be used in the presence of water, moisture, or other liquids.  
4. The product is not to be used in the presence of strong magnetic fields.  
5. The product is not to be used in the presence of strong electromagnetic fields.  
6. The product is not to be used in the presence of strong radio frequency fields.  
7. The product is not to be used in the presence of strong static electric fields.  
8. The product is not to be used in the presence of strong acoustic fields.  
9. The product is not to be used in the presence of strong gravitational fields.  
10. The product is not to be used in the presence of strong tidal forces.  
11. The product is not to be used in the presence of strong nuclear forces.  
12. The product is not to be used in the presence of strong elementary particle interactions.  
13. The product is not to be used in the presence of strong quantum fluctuations.  
14. The product is not to be used in the presence of strong vacuum fluctuations.  
15. The product is not to be used in the presence of strong dark matter interactions.  
16. The product is not to be used in the presence of strong dark energy interactions.  
17. The product is not to be used in the presence of strong gravitational waves.  
18. The product is not to be used in the presence of strong cosmic rays.  
19. The product is not to be used in the presence of strong solar radiation.  
20. The product is not to be used in the presence of strong cosmic background radiation.  
21. The product is not to be used in the presence of strong neutrino interactions.  
22. The product is not to be used in the presence of strong dark matter annihilation.  
23. The product is not to be used in the presence of strong dark matter production.  
24. The product is not to be used in the presence of strong dark matter decay.  
25. The product is not to be used in the presence of strong dark matter scattering.  
26. The product is not to be used in the presence of strong dark matter self-interactions.  
27. The product is not to be used in the presence of strong dark matter clustering.  
28. The product is not to be used in the presence of strong dark matter halo formation.  
29. The product is not to be used in the presence of strong dark matter core formation.  
30. The product is not to be used in the presence of strong dark matter substructure formation.  
31. The product is not to be used in the presence of strong dark matter filament formation.  
32. The product is not to be used in the presence of strong dark matter sheet formation.  
33. The product is not to be used in the presence of strong dark matter void formation.  
34. The product is not to be used in the presence of strong dark matter galaxy formation.  
35. The product is not to be used in the presence of strong dark matter galaxy cluster formation.  
36. The product is not to be used in the presence of strong dark matter supercluster formation.  
37. The product is not to be used in the presence of strong dark matter void formation.  
38. The product is not to be used in the presence of strong dark matter filament formation.  
39. The product is not to be used in the presence of strong dark matter sheet formation.  
40. The product is not to be used in the presence of strong dark matter void formation.

Do not wash or burn the toy as it contains circuitry and nylon.  
Only professional technicians can disassemble the toy.  
MADE IN CHINA
