

- Benefiting intelligence
- Interesting amusement
- Funny game

1. Slide the game board half way across the base, raise upright and then gently push down until it clicks into place.

1

2

2. Players take turns to drop one of their coloured counters into the column of their choice.

3. The game is won by the first player to create a row of four counters of the same colour. The winning line may be arranged horizontally, vertically or diagonally.

3

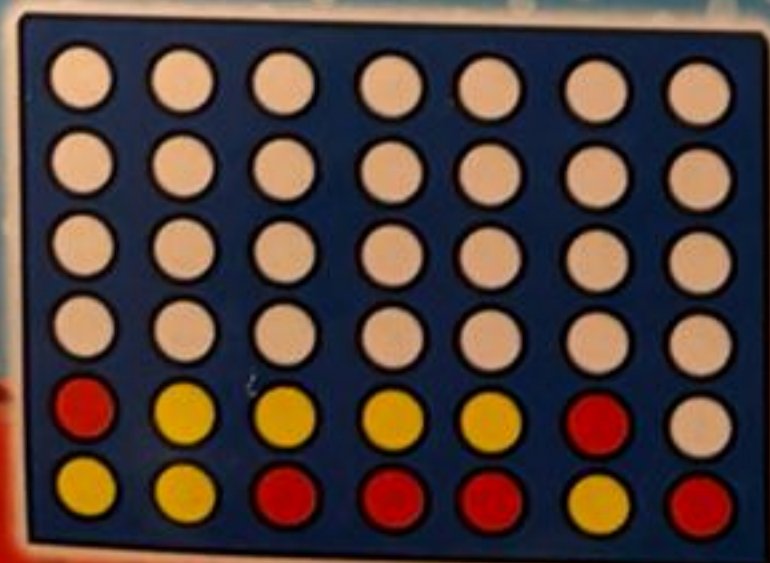

4

4. When the game is finished, lift and tilt the vertical game board to release the counters - ready to start a new game.
