Up to 30% faster charging iPhone

Valid for iPhone 6 Plus and iPhone 6. Speed calculated with respect to the charger supplied with the phones.

Fino al 30% più veloce nella ricarica degli iPhone

Valido per iPhone 6 Plus e iPhone 6. Velocità calcolata rispetto al caricabatterie in dotazione ai telefoni.

The specified values are based on iPhone SE (battery: 1642 mAh) with 20% battery level in stand-by mode. The charging performance decreases greatly with the phone turned on or during full usage. The number of charges may vary depending on the phone model.

I valori indicati si riferiscono all'iPhone SE (batteria: 1642 mAh) con batteria residua al 20% e in stand-by. Le performance di carica si riducono notevolmente col telefono acceso o in utilizzo. Il numero di cariche può variare in base al modello di telefono ricaricato.
