

## User Manual

### Product specification

- Model: H3
- Version: 3.0
- Composite product ID: H3016440101410001
- Transmission distance: 10M
- Frequency range: 2402MHz-2480MHz
- Range: <math>1000\text{m}</math>
- Headphone battery capacity: 80mAh
- Call duration: around 4-5h
- Music playback: around 2.5-3h
- Stand-by function: around 120h
- Headphone charging time: around 60min
- Charging box battery capacity: 330mAh
- Charging low input power: 5V 1A
- Charging low output power: 5V 1A
- Charging box charging time: around 2-3h

### Package contents:

- Headset with earbuds x 2 (left & right)

### Note: Please use the correct charger when charging the product.

Special attention: Do not use special charging devices such as USB to avoid damage to the earbuds.

### Distinction of the earbuds

1. The earbuds are distinguished by the shape of the earbuds. The left earbud is marked with 'L' and the right earbud is marked with 'R'. Please distinguish the earbuds when charging.

2. The charging case: The figure on the charging case lid will show the battery capacity. The left charging case lid figure of 'L' is shown, and please distinguish the left earbud from the charging case.

### Instructions for first use

When taken out, the earbuds will automatically turn on and match.

1. Turn on earbuds: Turn on the earbuds and connect to the charging case for charging or listen.

2. Take out earbuds from the charging case: At the same time, turn on the earbuds and connect to the charging case. When the charging case is closed, the LED indicator light of the left earbud will be on and will flash alternately. The right earbud indicator light will be on and will flash.

3. Turn on Bluetooth: Turn the device on and turn on Bluetooth, and connect to the earbuds. When connected, there will be a connection. The connection of the Bluetooth earbuds connection will appear on the phone. [After Bluetooth connection, manual connection is recommended. See the H3016440101410001 user manual for details.](#)

### Power off

1. Turn the volume up/down buttons on the case for 5 seconds, and it will be powered off when the status light flashes 3 times. When directly put into the charging case, the earbuds will turn off automatically.

2. When disconnected from Bluetooth, the earbuds will shut down automatically.

### FAQ

- The phone cannot search for Bluetooth devices  
Please check whether the phone has Bluetooth function. Please turn on Bluetooth and search for devices.

- There is sound on only one side of the earphone

Check whether the earbuds are inserted in both sides.

Check whether both sides are powered on.

Check whether both sides are paired successfully.

- The earbuds do not work in Bluetooth mode

1. Check whether the earbuds are in use.

2. The distance between the earbuds and the Bluetooth device is more than 10 meters.

3. There is a large area of signal shielding object between mobile phone and Bluetooth earbuds. Remove it.

4. The left and right ear earbuds are not synchronized. It is recommended that the left and right earbuds be paired after connection.

5. The case should be inserted correctly after use. The touch and tap will fail.

- The sound quality of the Bluetooth headset is not clear

1. Turn on speaker: Inserted with using ear earphones. Please it is suggested to use music in an orderly way with the sound quality of the earbuds. Please do not use the earbuds for long time.
