Product Specifications

Model:XS

input parameters:5V/2A,9V/1.7A,12V/1.67A

Output parameters: 5V/1A,9V/1.1A,9V/1.67A

Output power:compatible 5W,7.5W,10W,15W

Precautions

- 1,this product requires car equipped with certified QC3.0 other formal charge IS to adapt
- 2,avoid excessive compression and collision device
- 3,4 to avoid the use of the device at a high temperature, humid or corrosive environments,the product is prohibited dismantle
