

BULLET

Bullet takes pride in producing safety gear that you can trust. Our products are constantly evolving as action sports push new boundaries. Every item we manufacture is put through rigorous testing by our team. www.bulletsafetygear.com

SAFETY STANDARD

Bullet helmets have the necessary EU and international safety regulations.

They comply with the safety requirements of the European Committee for Standardization (EN 1078)

AND

The safety requirements of the U.S. Consumer Product Safety Commission (CPSC).

WARNINGS

Helmets can protect against all types of accidents. Helmets reduce or prevent many injuries, but even low speed impact accidents can result in fatal injury. This helmet should not be used with or on any motor vehicle. This helmet is to be used with skateboards, scooters, roller skis and bicycles only. Always skate or ride within your ability. Action sports are dangerous and can result in injury or death even when full safety gear is worn. There are loose straps on this helmet that can get caught on anything. Do not wear this helmet in areas where the straps could get caught on anything and any climbing activities. If the helmet is dropped or damaged, it should be replaced immediately. The shock absorption becomes less effective after impact and will no longer protect your head. Do not make any adjustments or modifications to this helmet. Full safety gear should also be worn for all action sports. Full safety gear includes knee,

FITTING INSTRUCTIONS

To ensure maximum protection and comfort, the helmet size to be the right size and must be worn correctly to ensure proper fit.

Your helmet should not obstruct your vision.

Your helmet is fitted with padding to ensure maximum comfort and protection around the whole of your head. A properly fitting helmet should mean the pads contact every part of your head whilst remaining comfortable.

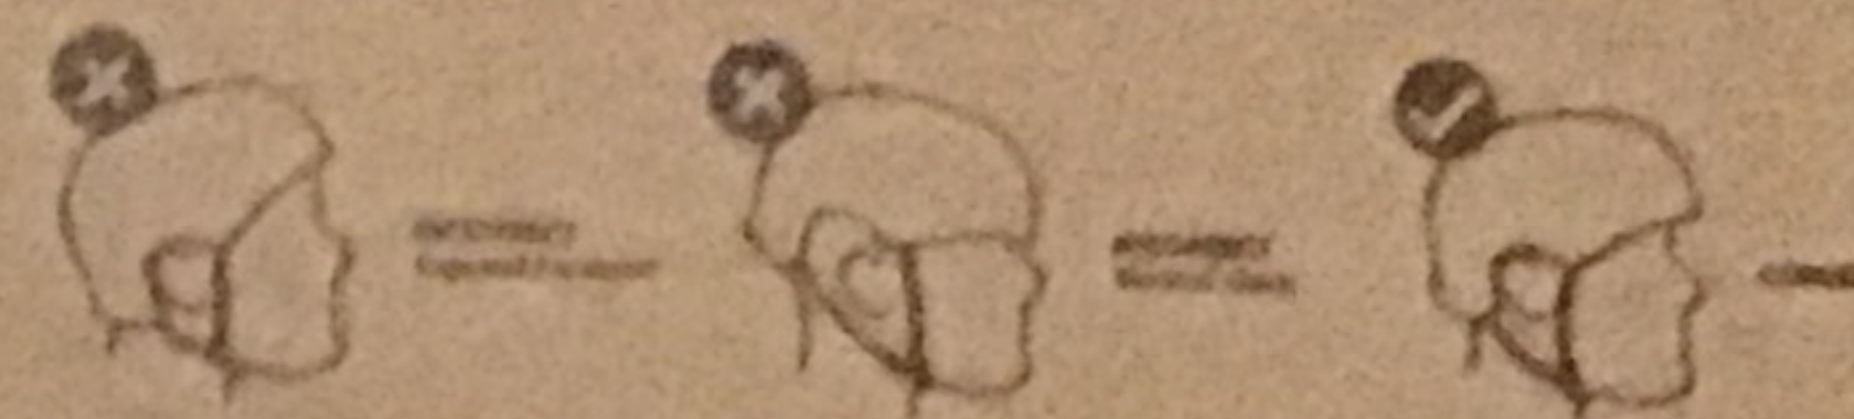

The straps on your helmet should be checked before each use. Check for fraying edges and any rips or tears. The strap should keep the helmet secure during excessive movement whilst remaining comfortable.

A properly fitting helmet should NOT be able to be removed from the head with the straps fastened.

To adjust the position of the straps, hold one end of the chin buckle in one hand and slide the adjuster up or down the strap as necessary, to create a balanced and even "Y" shape underneath the ears.

Adjust the tightness of the chinstrap accordingly. It should be tight enough that you can just slip a couple of fingers between the strap and the neck when fastened. Be VERY CAREFUL not to pinch the skin when closing the buckle. The helmet should be secure and not come off when moved back and fourth and side-to-side.

JUNIOR	JUNIOR	ADULT	ADULT
XS/S	M	S/M	L/XL
48-50CM	52CM	54-57CM	58-62CM

CARE AND CLEANING

Avoid leaving your helmet in excessive heat for long durations of time. Store in a cool/dry place.

Only use a soft towel, soap and warm water to clean your helmet.

You can remove and clean the comfort pads by hand and re-insert them after they air dry.

WARRANTY

Bullet helmets are warranted to be free from defects in materials and workmanship for one (1) year from the date of purchase.

This applies only to the original owner and must be accompanied by original sales receipt as proof of purchase. This warranty does not cover damage resulting from impact, misuse, abuse, accident, negligence, normal wear and tear.

If your helmet is found to be defective in workmanship or material, at our discretion, repair or replace your helmet.
