5. Basic Trouble Shooting

5.1 The device displays an error message for the network or service

If you are in area where the signal is weak or the reception is poor, may not receive signal well. Please move to another area and try again. Error messages may occur repeatedly as you move.

5.2 The device is unable to POWER ON successfully

When the battery is fully discharged, the unit will not be turned on. Fully charge the battery before turning on the unit.

5.3 Touch the screen to respond slowly or unresponsive

- If you install a screen saver or buy accessories on the touch screen, the touch screen may not function properly.
- If you wear gloves when touching the touch screen, your fingers are not clean, or you touch the screen with a sharp object or fingertip, the touch screen may fail.
- Touch screen may fail in wet conditions.
- Restart your device to clear any temporary software errors.
- Confirm that your device's software has been updated to the latest version.

5.4 Equipment crashes or a serious heating issue

Try the following solutions, if the problem is still not solved, please contact the designated after-sales service center.

5.4.1 Reboot the device

If the device occurs, you may need to close the application or turn the device off and power it on again.

5.4.2 Force restart

If the unit fails to respond, press and hold the power key for more than 10 seconds to restart the device.

5.4.3 RESET

If the above party does not resolve the issue, perform a factory-reset operation.

Settings → System settings → Reset options → Erase all data → RESET DEVICE.

Please remember to back up all the important material stored in the unit before performing the reset set-up operation.

5.5 The network is often interrupted

5.5.1 Wi-Fi signal weak

- The e-Reader may be out of range. Move it closer to an access point or another wireless LAN device associated with it.
- Check your surroundings for interference, such as microwave ovens, wireless phones, and mobile tablets should stay away from objects that cause interference.

5.6 Battery Status Icon is empty

Battery Level is low; please charge the battery right away.

5.7 The battery is not charging properly

- Please make sure the battery charger is connected correctly.

5.8 Battery runs out faster than at the start of purchase

- When the device or battery is exposed to extremely cold or extremely hot temperatures, the effective charge may decrease.
- Battery is a consumer and will be less effective over time.

5.9 Data stored on the device has been lost

Please ensure that you have fully backed up all the data stored on the device regularly. We are not held liable for the permanent loss, damage, or misuse of your data.
