

DIGITAL PROJECTION ALARM CLOCK USER MANUAL

EN8827A-RGB

***All safety and operation instructions should be read thoroughly before proceeding and please keep the manual for future reference.**

UNIT FEATURES

START UP

Please remove plastic insulator tab from button battery compartment in the back and connect the power cable into the jack in the back of clock and then plug the power cable into the socket. The LED display turns on.

Note: When the power is off, the LED screen won't show, the alarm cannot work. The backup battery only retains the basic settings of time and alarm.

SETTINGS

• Time Setting

1. Press and hold the “SET” button 3 seconds, the display screen shows “24Hr” and flashes, press “▲·RGB” or “▼” to select “12H” or “24H”.
2. Press “SET” again, the hour digits flash, press “▲·RGB” or “▼” to set hour. (Long press “▲·RGB” or “▼” will accelerate setting at high speed.)
3. Press “SET” again, the minute digits flash, press “▲·RGB” or “▼” to set minute. (Long press “▲·RGB” or “▼” will accelerate setting at high speed.)
4. Press “SET” or without any operation within 10 seconds, it will exit the current setting mode.

Note: When 12-hour time format is selected, the “AM” icon will appear on the screen in the morning. Press and hold the “▲·RGB” 3 seconds to switch from “12H” and “24H” format.

• Alarm Setting

1. Short press “▼” once to turn on/off alarm. The sequence is: Alarm 1 ON - Alarm 2 ON - Alarm 1 OFF - Alarm 2 OFF (Circulation).
2. Short press “🔔” once to check alarm 1 (There are “🔔” icon appear on the screen).
3. In the Alarm 1 mode, Press and hold “🔔” for 3 seconds to enter setting mode. The sequence is “Hour”-“Minute”- “Snooze time”. (The setting object is flashing).
4. Adjust the value using “▲·RGB” or “▼”, after setting press “🔔” once to confirm.
5. The default Snooze time is 5 minutes, “05” icon is flashing (represent of 5 minutes), short press “▲·RGB” or “▼” to set from 5 to 60 minutes snooze time.
6. If you need second alarm, Short press “🔔” once to check alarm 2 and repeat step 3-5 (Note: Second alarm clock reflects “🔔” on the display screen).

• Alarm ON/Alarm OFF

1. When alarm is setting, there will be an “🔔” or an “🔔” icon appear on the screen. When alarm 1 or 2 is sounding, the related icon flashes, press “ZZ•☀️” once, the alarm will be silent and come on again after the setting snooze duration (There are “ZZ” icon appear on the screen).
2. Press any other buttons except the “ZZ•☀️” one time to stop the alarm and it will sound on the following day. The related alarm icon won’t disappear.
3. If your second alarm activates while the first alarm is sounding or it is in the snooze mode, the second alarm will override the first alarm (the first alarm is reset to come on the next day).

• Use Projection

1. In the clock mode, press “📽️” once in the AC mode to turn on the projection (bright), then press again to adjust the brightness of projection. (From bright-slightly bright- off, default is off)
 2. When the projection is on, press and hold “📽️” 3 seconds to revolve projection view. Long press “📽️” to rotate the projection 180 degrees.
