Wireless Stereo Headset

Model: YZ957

Do not install the product in a confined space, such as a bookcase or built-in cabinet.

Do not expose the batteries (battery pack or batteries) to fire or electric shock, such as sunshine, fire, the like, for a long time.

Do not subject the batteries to extreme low temperatures. Excessive heat or extreme cold causes overheating and thermal runaway.

Do not dismantle, open, or short secondarily or batteries.

In the event of a cell leaking, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical advice.

Secondary cells and batteries need to be charged using the correct charging method. Refer to the instructions or product manual for proper charging instructions.

After extended periods of storage, it may be necessary to charge and discharge the cells or batteries several times to obtain maximum performance.

Dispose of properly.

Note for customers: the following information only applies to products sold in countries applying EU directives and/or UK applying relevant statutory requirements.

This product has been manufactured by or on behalf of Sony Corporation, 1-7-1 Honcho, Chiba City, Chiba Prefecture, Japan 272-8580. EU Importer: Sony Europe B.V. Inquiries to the EU importer or related to product compliance in the UK should be sent to Sony Corporation, 1-7-1 Honcho, Chiba City, Chiba Prefecture, Japan 272-8580. UK Importer: Sony Europe B.V. Inquiries to the UK importer or related to product compliance in the UK should be sent to Sony Corporation, 1-7-1 Honcho, Chiba City, Chiba Prefecture, Japan 272-8580. Disposal of waste batteries and electrical and electronic equipment (applicable in the European Union and other countries with separate collection systems)

This symbol on the product, the battery or on the packaging indicates that the product and the battery shall not be treated as household waste. On certain batteries this symbol might be used in combination with a chemical symbol. The chemical symbol for lead (Pb) is added if the battery contains more than 0.004% lead. By ensuring that these products and batteries are disposed correctly, you will help to prevent potentially negative consequences for the environment and human health which could be caused by inappropriate waste handling. The recycling of the materials will help to conserve natural resources. In case of products that for safety, performance or data integrity reasons require a permanent connection with an incorporated battery, this battery should be replaced by qualified service staff only. To ensure that the battery and the electrical and electronic equipment will be treated properly, hand over these products at the point of purchase to the collection point for the recycling of electrical and electronic equipment. For all other batteries, please view the section on how to remove the battery from the product safely. Hand the battery over to the appropriate collection point for the recycling of waste batteries. For more detailed information about recycling of this product or battery, please contact your local Civil Office, your household waste disposal service or the shop where the battery was purchased.

This unit has been tested and found to comply with the limits set out in the EMC regulation using a connection cable shorter than 3 m.

Do not use the unit while walking, driving, or cycling. Doing so may cause traffic accidents.

Do not use in hazardous areas unless the surrounding sound can be heard.

If the user or foreign matter enters the unit, it may result in fire or electric shock. If water or other matter enters the unit, stop use immediately and consult your nearest Sony dealer. In particular, be careful in the following cases:

- When using the unit near a sink or liquid container be careful that the unit does not fall into a sink or liquid container.
- When using the unit in the rain or snow, or in humid locations.

Be aware of the effects of contact with the human body from the mobile phone or other wireless devices connected to the unit, refer to the instruction manual of the wireless device.

If the earbud tips are not securely attached, they may fall off and remain inside the ear during use. Make sure that the earbud tips are securely attached before use.

Never insert the USB plug when the unit or charging cable is wet. If the USB plug is inserted while it is wet, it may cause a short circuit or fire.

Made for iPhone iPod

This product (including accessories) has magnet(s) which may interfere with pacemakers, programmable shunt valves for hydrocephalus treatment, or other medical devices. Do not place this product close to persons who use such medical devices. Consult your doctor before using this product if you use any such medical device.

There is a danger that small parts may be swallowed. After use, store in a location out of reach of small children.

Note about static electricity

If you use the unit when the air is dry, you may experience discomfort due to static electricity accumulated on your body. This is not a malfunction of the unit. You can prevent this by wearing clothing made of natural materials that do not easily generate static electricity.

Precautions

The two-dimensional code or the URL on the cover will help you access the help guide that describes useful notes or procedures in detail.

Under water resistant of the unit

- Unless the unit is used correctly, water may get into the unit and cause fire, electrocution, or malfunctions.
- Note the following cautions carefully and use the unit correctly.
 - Make sure that the USB Type-C® port cover is closed securely when you use the unit.

To maintain water resistant performance

Carefully note the precautions below to ensure proper use of the unit.

- Make sure the USB Type-C port cover is closed securely when using the unit. If there is any foreign matter on the cover or if it is not completely closed, the water resistant performance cannot be maintained. Water may get inside the unit and cause the unit to malfunction.
- Do not splash water forcibly into the sound output holes.
- Do not drop the unit into water, and do not use underwater.
- Do not allow the unit to remain wet in a cold environment, as the water may freeze. To prevent malfunction, make sure to wipe off any water from the unit.
- Do not place the unit in water or use it in a humid place such as a bathroom.
- Be careful not to apply force to a mechanical shock. Doing so may deform or damage the unit, resulting in deterioration of water resistance performance.

Note for customers: the following information only applies to products sold in countries applying EU directives and/or UK applying relevant statutory requirements.

On BLUETOOTH® communications

- Microwaves emitting from a Bluetooth device may affect the operation of electronic medical devices. Turn off this and other Bluetooth devices in the following locations, as it may cause an accident.
 - In hospitals, near priority seating in trains, locations where inflammable gas is present, near airport doors, or near fire alarms.

On charging the unit

- Make sure to close the USB Type-C port cover securely after charging. Perspiration or water may cause damage (Fig. 1).

Notes on wearing the unit

- After use, remove the headphones slowly.
- Because the earbud tips adhere a tight seal in the ears, forcibly pressing them or quickly pulling them out can result in ear drum damage.

Other notes

- If you experience discomfort while using the unit, stop using it immediately.
- If you have any questions or problems concerning this unit that are not covered in this manual, please consult your nearest Sony dealer.
