Anker Innovations Deutschland GmbH
Georg-Mueller-Strasse 3, 80807 Munich, Germany

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

This product complies with the radio interference requirements of the United Kingdom.

Declaration of Conformity

Hereby, Anker Innovations Limited declares that this device is in compliance with Radio Equipment Regulations 2017(SI 2017/1206). The full text of the UK declaration of conformity is available at the following internet address: <https://uk.seenebula.com>
Anker Technology (UK) Limited, GNR8, 49 Clarendon Road, Watford, Hertfordshire, WD17 1HP, United Kingdom

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between equipment and receiver.
- (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- (4) Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Information(SAR)

The SAR limit of USA (FCC) is 1.6W/kg averaged over one gram of tissue. Device type D2421 has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use when properly worn on the body is 0.093W/kg.

Notice: Shielded cables

All connections to other computing devices must be made using shielded cables to maintain compliance with FCC regulations.

Notice (Canada)

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:
this device may not cause interference, and this device must accept any interference, including interference that may cause undesired operation of the device.
Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
l'appareil n'émet pas de brouillage, et
l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

IC RF Statement:

When using the product, maintain a distance of 20cm from the body to ensure compliance with RF exposure requirements.
Lors de l'utilisation du produit, maintenez une distance de 20cm du corps afin de vous conformer aux exigences en matière d'exposition RF.

Warning:

- replacement of a battery with an incorrect type that can defeat a safeguard;
- disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion;
- leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas; and
- a battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

Attention:

- remplacement d'une batterie par un type incorrect pouvant supprimer une protection
- mise au rebut d'une batterie dans un feu ou dans un four chaud, ou écrasement mécanique ou coupure d'une batterie, susceptible de provoquer une explosion;
- maintien d'une batterie dans un environnement à très haute température pouvant provoquer une explosion ou la fuite de liquide ou de gaz inflammables; et
- batterie soumise à une pression de l'air extrêmement faible pouvant provoquer une explosion ou la fuite de liquide ou de gaz inflammables.

CAUTION RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS
ATTENTION RISQUE D'EXPLOSION SI LA BATTERIE EST REMPLACÉE PAR UN TYPE INCORRECT. ÉLIMINER LES BATTERIES USÉES SELON LES INSTRUCTIONS

5150~5250 MHz can be used indoor only.
5150~5250 MHz peut être utilisé à l'intérieur uniquement.

Nebula Capsule II Quick Start Guide

Overview

1. Front View

2. Rear View

3. Top View

4. Bottom View

5. Remote Control

Note:

- Press and hold the for 2 seconds to engage autofocus.
- The can be used only when the remote control is paired with the projector via Bluetooth.

Getting Started

- For first-time use, fully charge the built-in battery by using the provided cable and charger.

- Slide off the battery cover and install 2 AAA batteries before using the remote control for the first time. Make sure the positive and negative ends are facing the correct polarity direction as marked in the battery compartment.

- Hold on the projector for 2 seconds to power on the projector.

- Slightly move the projector to engage autofocus.
- For first-time use, follow the on-screen instructions to complete the basic set-up. Adjust settings in the projector's **Settings** menu if necessary.

Using the Nebula Capsule II

Install Netflix and Prime Video

- Download **Nebula Manager** from your Nebula Capsule II's Google Play store. With Nebula Manager, you can download and install apps such as Netflix, Prime Video, and more.

- Follow the on-screen instructions to install Netflix and Prime Video.

Install Nebula Connect App

To control the projector, download the Nebula Connect app from your phone's App Store (iOS devices) or Google Play (Android devices). Make sure your phone and Nebula Capsule II are connected to the same wireless network.

Important Safety Instructions

- Due to the enclosure material, the product must only be connected to a USB interface of version 2.0 or higher.
- The adapter should be installed near the equipment and must be easily accessible.
- Do not use the device in an environment where the temperature is too high or too low. Never expose the device to strong sunshine or wet environments.
- The ideal temperature range for this product and its accessories is 0°C-35°C.
- When charging, place the device in an environment that has a normal room temperature and good ventilation. It is recommended to charge the device in an environment with a temperature that ranges from 41°F - 77°F / 5°C - 25°C.
- Only use the charger provided by the manufacturer. Using unauthorized chargers may cause danger and violate the authorization of the projector as well as the guarantee.
- This charger is for indoor use only.
- The charger type is a PN303E / PN303B with output voltage / current of DC 15V / 2A. The plug of the adapter is considered as the disconnect device. Once unplugged, the charger is considered as disconnected from the power source.

Possibly hazardous optical radiation emitted from this product, do not stare at operating beam. Maybe harmful to the eyes.

Notice

This product complies with the radio interference requirements of the European Community.

Declaration of Conformity

Hereby, Anker Innovations Limited, declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. For the Declaration of Conformity, visit the Web site <https://uk.seenebula.com/>

RF exposure information: The Maximum Permissible Exposure (MPE) level has been calculated based on a distance of d=20cm between the device and the human body. To maintain compliance with RF exposure requirements, use products that maintain a 20cm distance between the device and human body.

CAUTION RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS

Wi-Fi Operating Frequency Range: 2412~2472 MHz (2.4G); 5150~5250 MHz, 5725~5850 MHz (5G)

Wi-Fi Max Output Power: 16.86 dBm (2.4G); 15.52 dBm (5G)

BT Operating Frequency Range: 2402~2480 MHz; BT Max Output Power: -2.33 dBm

5150~5250 MHz can be used indoor only.
