

Electric Lady Shaver

Product Manual

Instructions:

Shaving legs

1. Please insert two AAA batteries as shown in Figure 1 on the next page, and press the switch button to power on.
2. Use the other free hand to stretch your skin to make the hair stand upright, and slowly move the shaver on the skin against the direction of hair growth while moving, pressing down gently.
3. The long hair trimmer will follow the curve of the body, lift all the long hairs and remove them, and then the outer knife net cutter head assembly will shave the remaining short hairs.
4. After use, press the switch button to turn off the power.

Underarm shaving

1. When shaving underarms, place one arm behind your head to stretch the skin.
2. Slowly move the female shaver over the skin.

See Figure 2 on the next page for how to use the product.
