TL mini | 13W | G5 fitting | 827 Zeer Warm Wit | 52 cm

SKU: 302057

EAN: 8721649011982

Product-specific markings and instructions on the product or packaging take precedence.

IMPORTANT SAFETY INFORMATION

Read these instructions carefully before installation or use and keep them for future reference. These are general safety instructions for lighting products. Always follow the product-specific instructions, ratings and markings shown on the product, packaging or accompanying documentation.

- Use the product only for its intended purpose as a lighting product.
- Before installation, removal, cleaning or maintenance, disconnect the electrical supply where applicable and prevent accidental reconnection.
- Where connection to fixed electrical wiring is required, installation and electrical work must be carried out by a suitably qualified person in accordance with applicable local regulations.
- Do not install or use the product if it is visibly damaged. Do not modify the product or its electrical components.
- Keep electrical connections and components protected from moisture unless the product is specifically marked as suitable for such conditions.
- Do not exceed any electrical ratings, lamp type restrictions or other limitations stated on the product or packaging.
- Use only compatible fittings, lamp holders, luminaires and accessories. Do not force components into incompatible fittings or connectors.
- Do not cover the product or obstruct required ventilation or heat dissipation. Allow the product to cool before touching, removing, replacing or cleaning it.

INSTALLATION & USE

1. Check the product and packaging for product-specific installation instructions and markings before installation.
2. Disconnect the electrical supply before starting installation where applicable.
3. Install the product securely and only in a compatible fitting, luminaire or installation location.
4. For products requiring electrical wiring, follow the terminal markings and product-specific wiring instructions. If uncertain, consult a qualified electrician.
5. After installation, make sure the product is securely positioned before restoring the electrical supply.
6. Discontinue use immediately if the product shows visible damage, abnormal operation, excessive heat, smoke or another indication of malfunction.

CLEANING & MAINTENANCE

Disconnect the electrical supply and allow the product to cool before cleaning. Clean only with a soft, dry or slightly damp cloth where appropriate. Do not use abrasive cleaners, solvents or aggressive cleaning agents. Do not allow moisture to enter electrical components or connections.

DISPOSAL

Do not dispose of this electrical or electronic product with unsorted household waste. At the end of its service life, use an appropriate collection or recycling system for electrical and electronic equipment in accordance with local regulations. Separate and recycle packaging materials where facilities are available.
