

## PARTS

## SPECIFICATION

1.Aroma diffuser	1PC
2.Power supply	1PC
3.Manual	1PC
4.Cup	1PC

Voltage	3W DC
Power	12W
Tank capacity	230ml

## DIRECTIONS FOR USE

### SET UP

Select a firm, level floor location (at least 15cm/6 inches) from any wall or object for proper airflow. Place the diffuser on a water resistant surface, or water can damage furniture and some flooring. Do not place directly on carpet, mats, blankets, or other absorbent surfaces. Keep the unit away from any electrical power source for safety.

**Warning:** We will not accept responsibility in the event of an accident or other spillage.

**Make sure unit is unplugged before the following operation.**

1. Separate the top cover from the main body of the unit.
2. Using a shallow lip cover, use the measuring cup to fill the water into the reservoir.  
Do not fill the water beyond the MAX level mark of the reservoir and the device will not work if filled beyond MAX level.  
**Important: DO NOT** adjust or fill water into the diffuser without removing the top cover.
3. Add an appropriate amount of essential oil.  
**Important:** Can be adjusted according to personal preference.
4. Return the top cover.
5. Connect the power adapter to the unit. Plug it into a standard outlet.
6. Place the power adapter to turn the diffuser on.

## Button Instruction

### Touch switch controls warm night light:

- Press once: All the buttons work (1) Three On/Night Light On
  - Press twice: All the buttons work (2) Diffuser On/Night Light Off
  - Press three times: All the buttons work (3) Diffuser Off/Night Light On
- Protection Function: When water shortage occurs, the red light will flash three times, then diffuser and night light will be auto off.

### AFTER EACH USE

1. Turn the device OFF and unplug the unit from the electrical outlet.
  - 1. Flip off the top cover.
2. Drain and rinse the water tank thoroughly to remove any sediment and dirt. Allow clean and dry with a clean soft cloth or paper towel.
3. Remove water and clean the water tank after each use.

**IMPORTANT:** Do not fill with hot water as this may cause boiling. Remove the water from the tank when the diffuser is not in use.

**NOTE:** If you encounter a problem, do not attempt to open the machine housing yourself. Please contact your retailer, distributor and service center or the manufacturer for personal repairs.
