

INFRARED RADIANT HEATER

With a height of almost 2 metres and an adjustable heat capacity from 600 to 1800 watts, the EPHS1800 from scheppach ensures cosy warmth on the patio during cold nights. Thanks to its slim, tall design in plain black and silver, it fits in everywhere in terms of design and space. Its special feature is the pivoting heating module allowing you to enjoy the infrared heat either from the side or from above. Thanks to the two integrated lights, the radiant heater can be simultaneously used for illumination.

- Adjustable heat capacity in 5 levels from 600 to 1800 watts
- Slim, tall design in black and silver
- Base plate size of 52 x 33 cm for a stable stand
- Pivoting heat element provides heat from the side or from above
- Completely silent
- Can be easily operated on the device or via remote control
- Two integrated lights which can be turned on individually
- No risk of burns thanks to the protective grate
- Built-in anti-tip feature switches the device off
