

## Ultimaker S3: Declaration of Safe Unattended Professional Use

For the following:

**Product:** 3D printer  
**Model:** Ultimaker S3

**Manufacturer:** Ultimaker B.V.  
Stationsplein 32  
3511 ED Utrecht  
The Netherlands  
Tel.: +31 (0) 88 383 4000  
E-mail: [info@ultimaker.com](mailto:info@ultimaker.com)

In order to assure safe use, the Ultimaker S3 printer has been extensively assessed and tested:

- Risk assessment in accordance with ISO 12100:2010.
- Assessment and tests by an independent accredited test lab in accordance with:
  - IEC 62368-1:2014, CB scheme
    - Including known national differences: EU, USA, CAN, Japan, AUS/NZ
    - Differences for other countries (including but not limited to China, South Korea, Israel, and Taiwan) were checked but no differences were reported
  - CSA/UL 62368-1:2014
- Extensive functional testing at Ultimaker and historic data on similar Ultimaker printers and technology

Taking into account:

- The above-mentioned tests and assessments
- All precautions and prescribed actions for installation, operation, and maintenance from the latest version of the manual (see: support pages at [ultimaker.com](http://ultimaker.com))
- The use of Ultimaker branded filaments

Ultimaker hereby declares that the specified printer is safe for unattended (overnight) use.

The technical documentation is kept at the Manufacturer's address.

Roy Janssen  
Manager Product Safety & Environment / Compliance
