(5) Using the Novus

The Novus does not include pre-installed software. For file backup, we recommend the apps within Windows and Mac.

Using the Novus with Windows Backup

Windows 8:
Enter "File History" in the search box and open the app. Click 'Select a drive', and choose the Novus. Turn on File History to start the backup.

Using the Novus with Apple Time Machine

1) Format the drive as Mac OS Extended (Journaled) as described in the "Formatting the Drive" section.
2) Go to the Apple Menu > System Preferences and click on the Time Machine icon to launch the app.
3) Click 'On' to enable Time Machine.
4) Select the Novus drive and choose "Use for Backup."
5) Time Machine is now backing up your Mac automatically to the Novus.

(6) Disconnecting the Novus

Windows: Close all windows and applications that are accessing the drive. Click the "Eject Hardware" (Safely Remove Hardware) icon in the system tray and highlight the drive. Wait for a few seconds until the system prompts "You may safely remove this device."

MAC: Close all windows and applications that are accessing the drive. Drag the external drive to the Trash/Eject icon to eject it. After the disk icon has disappeared from the desktop, you may safely disconnect the external drive.
