DESCRIPTION

The gloves are seamless knitted polyester/cotton/lycra grip with a natural latex crinkle palm coating. The gloves are excellent for all round general handling situations.

CLEANING / MAINTENANCE

Both new and used gloves should be thoroughly inspected before being worn to ensure no damage is present. Gloves should not be left in contaminated conditions. Cleaning and disinfection is not intended for these gloves.

WARNING

- Do not use near moving machinery if there is a risk of entanglement.
- Gloves with two or more layers the overall classification does not necessarily reflect the performance of outmost layer.
- Gloves meeting the requirement for resistance to puncture may not be suitable for protection against sharply pointed objects such as hypodermic needles.
- Product contains latex and may cause hypersensitivity. Seek medical advice in case of hypersensitivity

Note: *The performance characteristics of worn and laundered gloves may differ from the results shown below.*

OBSOLESCENCE

When stored as recommended will not suffer change in mechanical properties for up to 3 years from the date of manufacture. Service life cannot be specified and depends on the application and responsibility to user to ascertain suitability of the glove for its intended use.

STORAGE

Gloves should be ideally stored at 5-25°C in dry, well ventilated area in original package. Prevent direct sunlight.

DISPOSAL

Used gloves may be contaminated with infectious or other hazardous materials. Please dispose according to local authority regulations. Landfill or incinerate under controlled conditions.

PLEASE NOTE

Hand protection is limited to the natural latex area of the glove. The information contained herein is intended to assist the wearer in selection of Personal Protective Equipment. The results of the laboratory tests should also help in glove selection, however it must be understood that the actual conditions of use cannot be simulated. It is therefore the responsibility of the user and not the manufacturer to determine the glove suitability for the intended use.
