

→ simplehuman® 45 litre rectangular step can grey

Our new rectangular step can features an innovative 'liner pocket' that keeps liners at your fingertips for a faster liner change. Just slip a liner refill pack into the liner pocket to dispense fresh liners one at a time — no clumsy perforations or unraveling. The can's stainless steel liner rim grips the liner and keeps it hidden. Strong wide steel pedal is designed to last, and our patented lid shox technology ensures a smooth, silent close every time. Code K liner refill packs store perfectly in this can's liner pocket.

- **easy liner refills:** Built-in liner pocket stores code K liner refill packs and dispenses liners one by one effortlessly - no perforations or unraveling.
- **neat and secure:** Stainless steel liner rim flips up for a quick and easy liner change, then closes over the liner to hold it tightly in place and keep it hidden from sight.
- **strong wide steel pedal:** Our extra-wide steel pedal is engineered to last 150,000 steps — that's more than 20 steps a day for 20 years.
- **silent close lid:** Our patented lid shox® technology controls the motion of the lid for a slow, silent close.
- **stabilizer bar:** Keeps the can steady for smooth and solid operation.
- **internal hinge:** Prevents the lid from bumping the wall.
- **custom fit liners:** Code K liners are designed to fit this can perfectly and are extra strong to prevent leaks and tears. Refill packs dispense liners one at a time and store perfectly in cans with our new liner pocket feature.
