

EN
EN KING: The product is marked with:

product has passed EN 1621-1:2012 to show conformity to the Regulation (EU) 2016/425 as brought into UK law and amended. The pictogram and standard number indicates that the product meets the requirements of EN 1621-1:2012 or EN 14120+A1. The category and type of the protector is denoted by a symbol that is the part/portion of the body. (see table 1) The identification of the manufacturer/ authorised representative. The identification of the product code/ Article number. The washing instructions. Manufacturing year: 2019 / 2nd quarter- selecting the right level of protective equipment, read carefully the external label and product description notation. When using the protective equipment, pay attention to the intended current state of the product (do not use the protector if the fasteners are inadequate, if the protective equipment is damaged, wet). The exact ingredients of the raw materials is included in the label. The expectancy of the protective equipment depends to a large extent on the effects of the product on use.

De
De zeichnung zur Kennzeichnung:

Die Kennzeichnung besagt, dass dieses Produkt den Anforderungen der PPE Richtlinie 2016/425 entspricht. Die Standardnummer sowie die Standard Nummer besagen, dass dieses Produkt die Anforderungen der EN 1621-1:2012 bzw EN 14120+A1 erfüllt.

Der Typ des Schoners werden durch ein Symbol gekennzeichnet. Entsprechenden Teil(bereich) des Körpers bezeichnet.
