

330ml, 460ml and 620ml TWIST 'N' SIP™ Bottle

1.0 Place cap in boiling water for 30 seconds and remove cap safely after time is up. Put cap back on bottle.

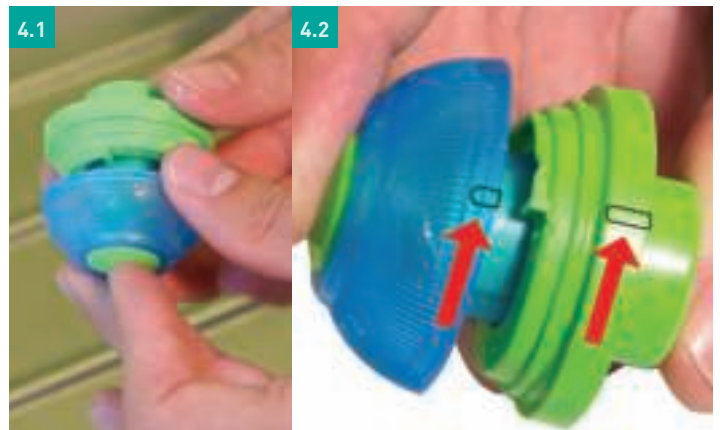

⚠ Caution: Be careful when using boiling water.

2.1 **2.2** **2.3** **2.4** Whilst still hot, twist cap so that nozzle is open. Using thumbs, apply pressure between cover and base to release cover.

3.0 Wash the components in the dishwasher (top rack only), or wash in hot soapy water.

4.1 **4.2** To reassemble, place cover onto base and align indicator tabs.

5.1 **5.2** While holding down the nozzle, twist the base onto cover. Then firmly press the cover and base together until it snaps shut.

6.0 Place cap back on bottle and check cap function. Enjoy!
