SAFE SIZING FOR JUVENILE AND SIDEWALK BICYCLES

It is assumed that the bicycle you have bought is sized correctly for the user. Some parents make the mistake of buying a bicycle too large for the intended rider, planning on the child 'growing into' it. There should be a minimum of 1 inch clearance above the highest point of the top tube when the child is mounting the bicycle with both feet on the ground (see drawing below).

WARNING

- Parents/guardians should take responsibility to guide and supervise the kids use of the bike to ensure the safety of the kids.
- Check the bike before and after use.
- Don't ride on rough terrain.
- Make sure the child always wears an approved bicycle helmet when riding, and not to let their children onto busy roads until they are before every ride, make sure that your bike is in safe operating condition.
- There are risks caused by improper use of the bike. Not allow kid to use the bike if the wheel and chain/wheelcranks are damaged or broken.

Importation:
BEFORE YOU OPEN THE PARCEL, PLEASE CHECK AND MAKE SURE THE BIKE IS COMPLETE AND NEW. PLEASE CONTACT THE DEALER IF CARTON IS DAMAGED OR BROKEN.
