# How to fill the bag

4 easy steps

NO PUMP  
REQUIRED

**STEP 1.** Remove the Softybag from the carry bag.

**STEP 2.** Hold your Softybag by the opening and pull it straight through the air. Make sure you close the opening before the movement ends. Repeat the movement 3-4 times until it has about 70% air.

Note, you do not have to run with it through the air.

**STEP 3.** Then seal the end by rolling the black part until your Softybag gets really tight with air and snap the buckle.

**STEP 4.** Now you can enjoy the Softybag.
