

A close-up photograph of a dark-colored, perforated fabric, likely a protective garment. A small, rectangular yellow label is attached to the fabric. The label features a large 'CE' mark on the left and the text 'TESTED PROTECTOR EN 1621-1' on the right. The fabric has a grid of small, dark holes. The lighting is focused on the label, making it stand out against the dark background.

CE TESTED
