SanDisk Ultra® | SDHC™ UHS-I Card

Up to 120MB/s read speed. Engineered with proprietary technology to reach speeds beyond UHS-I 104MB/s. Requires compatible devices capable of reaching such speeds. Write speed lower. Based on internal testing; performance may be lower depending on host device, interface, usage conditions and other factors. 1MB = 1,000,000 bytes. / Vitesse de lecture pouvant atteindre 120 Mo/s. Technologie propriétaire permettant de dépasser les 104 Mo/s offerts par la norme UHS-I. Des appareils compatibles capables d'atteindre ces vitesses sont requis. Vitesse d'écriture inférieure. Sur la base de tests internes ; les performances peuvent être inférieures en fonction du périphérique hôte, de l'interface, des conditions d'utilisation et d'autres facteurs. 1 Mo = 1 000 000 octets. / Velocità di lettura fino a 120MB/s. Unità progettate con tecnologia proprietaria per raggiungere velocità oltre UHS-I 104 MB/s. È necessario disporre di dispositivi compatibili in grado di raggiungere tali velocità. Velocità di scrittura inferiore. Dati basati su test interni; le prestazioni potrebbero essere inferiori in base all'interfaccia del dispositivo host utilizzato, alle condizioni di utilizzo e ad altri fattori. 1 MB = 1.000.000 di byte. / Bis zu 120 MB/s Lesegeschwindigkeit. Proprietäre Technologie ermöglicht bei Verwendung entsprechend leistungsfähiger kompatibler Geräte deutlich höhere Geschwindigkeiten als die 104 MB/s von UHS-I. Schreibgeschwindigkeit ist geringer. Angaben basieren auf unternehmensinternen Tests; die Leistung kann je nach Host-Gerät, Schnittstelle, Nutzungsbedingungen und anderen Faktoren geringer sein. 1 MB = 1.000.000 Byte. / Hasta 120 MB/s de velocidad de lectura. Diseñada con tecnología exclusiva para alcanzar velocidades superiores a los 104 MB/s de UHS-I. Requiere dispositivos capaces de alcanzar esas velocidades. Menor velocidad de escritura. Según pruebas internas; el rendimiento puede ser menor en función del dispositivo, la interfaz, las condiciones de uso y otros factores. 1 MB = 1 000 000 de bytes.

** 1GB / Go = 1,000,000,000 bytes / octets / Byte / di byte / byte. Actual user storage less / Stockage utilisateur réel moins / Almacenamiento real del usuario es menor / Tatsächlicher Speicher für Benutzer geringer / Archivazione effettiva minore.

1 Full HD (1920x1080) video support may vary / Unterstützung von Full-HD-Video (1920x1080) kann variieren / La prise en charge de la vidéo Full HD (1920x1080) peut varier / La compatibilidad para el video Full HD (1920x1080) podría variar. / Il supporto per il formato video Full HD (1920x1080) potrebbe variare. See www.sandisk.com/HD.

2 UHS Speed Class 1 (U1) designates a performance option designed to support real time video recording with UHS enabled host devices. See www.sdcard.org/consumers/speed. / La classe de vitesse UHS 1 (U1) désigne une option de performance conçue pour prendre en charge l'enregistrement vidéo en temps réel avec les dispositifs hôtes qui en sont capables. Consultez www.sdcard.org/consumers/speed. / La Classe 1 di velocità UHS (U1) indica un'opzione di prestazione progettata per supportare la registrazione di video real time con dispositivi host abilitati per UHS. Visitare la pagina www.sdcard.org/consumers/speed. / UHS-Klasse 1 (U1) bezeichnet eine Leistungsoption, die für die Unterstützung von Echtzeit-Videoaufnahmen mit UHS-I-fähigen Hostgeräten gedacht ist. Siehe www.sdcard.org/consumers/speed. / La velocidad UHS clase 1 (U1) designa una opción de rendimiento diseñada para permitir la grabación de vídeo en tiempo real con dispositivos host compatibles con UHS. Consulte www.sdcard.org/consumers/speed.

Trial RescuePRO® software offer available at <http://www.LC-Tech.com/Ultra>. Registration required; terms and conditions apply.
