APP DOWNLOAD & INSTALLATION

Quick download APP by scanning QR code as following

Or search for 'Agunto' in Apple App store or Google Play store, or scan the QR code above to download.

The camera only support 2.4GHz WiFi, not support 5GHz WiFi router. Make sure the router is 2.4GHz connection. Your provider can easily switch this for you

REGISTER AND LOG IN

Open the APP, if you haven't account, click on the 'Sign Up'. (Figure 1) enter the registration screen, enter a e-mailadres. If registration is completed, then login APP.

ADD DEVICE

In the APP home page, click on 'Add device'. (Figure 2). Select 'Sockets' (figure 3) to add device. Select 'AGU-SS1'.

CONNECT DEVICE

1. Please make sure the smart plug has connected with electricity at the beginning.
2. Please wait for the indicator to flash quickly, or long press on/off button of the device for seconds until indicator light quickly flashed.
3. Make sure the indicator light is flashing rapidly and confirm it in app; (Figure 4).
4. Choose the local WIFI and enter the correct password and confirm; (Figure 5).

5. Wait for configuring successfully, then tap "Done". (Figure 6).

FUNCTIONS

Power

Tap on the smart plug to turn the device on and off.

At the top of the screen you will see two values: one value with electricity per day and the other value per month.

Schedule

Schedule the device "lights" to turn on when you wake up or to automatically turn on when you get home. Turn devices on and off at different times to let people know that someone is home while you are away.
