Thank you for purchasing our product. Please read the operating instructions carefully before using the product for the first time. If you give the product to a third party, this manual must be handed over with it. Protect yourself and others by observing all safety information, warnings and precautions. Failure to follow the instructions may result in injury and/or damage to the product or property. Keep the instruction manual for future reference. The drawings in this manual may not match the physical objects. Please refer to the physical objects.

1 Introduction and safety instructions

1.1 Introduction

- These operating instructions are intended to familiarise you with the installation, use and maintenance of the appliance. To install the unit safely and correctly, please read the operating instructions **before** you start.
- Check the unit for any damage that may have occurred during transport. Immediately report any damage to the carrier by which the product was delivered.

1.2 Explanation of the symbols

By means of a CE marking, it can be recognized that a product complies with the legal provisions of European legal standards and therefore may be traded within the European Community.

Warning! Read the safety instructions carefully. Failure to follow the safety precautions could result in serious injury or damage. Keep the operating instructions in a safe place.

Be careful when using this product.

This product must **not** be disposed of with household waste!

Protected housing (protection class II)!

Warning! Do not put fingers and other limbs in the fan housing!

1.3 Important safety instructions

- Your safety is of the most importance to us. Please make sure that you read this instruction booklet **before** attempting to install and use the appliance. If you are unsure of any of the information contained in this booklet, please contact the Retailer where you purchased your unit.
-  **WARNING:** Read all safety and usage instructions. Failure to follow the safety information and instructions can cause electric shock, fire and/or serious injury. Keep all safety and usage instructions for future reference.
- **DO NOT** use the product until you read the instruction manual.
- Make sure you have read the instruction manual thoroughly and understand the contents before you start the installation.
- The instructions are in the interest of your safety.
- Before using the device for the first time, please read the instructions carefully and observe the safety instructions to avoid damage caused by incorrect or incorrect operation and inadmissible environmental conditions.
- Keep these for future reference.
- Check the device for damage after removing the packaging. If the device is suspected of being damaged, do not put the device into operation and contact a specialist.
- The packaging material must not be kept accessible or disposed of for small children, but must be disposed of properly.
- This device may only be used for the purpose for which it was expressly developed. Any other use is considered improper and therefore dangerous. The supplier is not liable for any personal injury and / or property damage resulting from improper or incorrect use.
- This device may be used by children 8 years old or older, persons with reduced physical, sensory or mental capabilities or a lack of experience and knowledge, provided that they have been supervised or have received instructions on the safe use of the device and understand the associated dangers.
- Children must be supervised to prevent them from playing with the unit.
- Do not direct the ventilator at older people or children for a long time.
- Do not insert fingers or other objects into the fan while it is in operation. Pay special attention to children.
- Children should not perform cleaning and user maintenance without supervision.
- Please ensure that you place the device on a suitable and insensitive surface so that leaking liquids can not cause any damage.
- Repairs to electrical equipment may only be carried out by qualified personnel. Improper repairs and modifications to the equipment can result in dangerous consequences for the user, and warranty claims will be rejected.
- Do not allow the device to touch hot surfaces.
- Do not immerse the USB cable or the device in water or other liquids as this may result in electric shock.
- Unplug the USB cable when the device is not in use or when it is being cleaned.
- Do not use the device with a damaged cable or after the device malfunctions and has been damaged in any way. Return the device to the seller for verification.
- Check the cable before commissioning to see if it is working. Check the device for cracks and damage. If the unit is damaged or cracked, contact customer service.
- Do not spray detergents near the fan to prevent damage to the plastic.
- If the cable is damaged, it must be replaced by the manufacturer or a qualified person to prevent hazards.
- The appliance is for home use only. Do not use it outdoors or for commercial purposes.
- Do not use the fan in a high humidity environment if it is hotter than 40 ° or if the

- environment is very dusty.
- We recommend that you keep the device in its original packaging if you do not intend to use it for a long period of time.
 - Always store the device out of reach of children in a well-ventilated and dry place.

2. Operation

- Plug the supplied USB cable into a suitable device and switch on the fan with the ON/OFF button.
- Use the left button to set the fan speed (High / Middle / Low).
- Use the right button to set the timer.

3. Technical data

Model	AR-HE-UTV5SW
Input	5 W
Voltage	DC 5 V / 1 A
Dimension (L x W x H)	6.54 x 5.08 x 10.63 in (166 x 129 x 270 mm)
Diameter Head	6.54 in (166 mm)
Air flow	5 m/s
Number of fan steps	3
Timer	1 / 2 / 4 hours
Number of fan blades	5
Oscillation	45° up/down
Connector	USB
Material cable	Cooper
Battery capacity	2000 mah
Cable length	3.28 ft (1 m)
Charging time	2 hours
Working time (fully charged)	Highest step: 2 hours Middle step: 4 hours Lowest step: 7 hours
Sound value	≤ 55 dB(A)
Protection class	II
Colour	Black/white
Weight	0.88 lbs (0.4 kg)

4. Cleaning and maintenance

- Clean the fan regularly.
- Never immerse the USB cable and the device in water or rinse under running water.
- **Warning:** Always disconnect the device from the power before moving or cleaning it.
- Disconnect power and wait for the fan to stop before cleaning.
- Clean the guard with a vacuum cleaner of dust and other debris.
- Use a damp cloth to clean the surface of the device.
- The following agents should not be used for cleaning: petrol, paint thinner or other chemicals.
- Allow the fan to dry completely before using it again.
- Leave the fan completely assembled for storage.
- Keep the fan in a cool, dry and safe place away from children and animals when not using the fan for a long time. The device must not be stored in a hot location or under direct sunlight.
- At best, store the fan in its original packaging.

5. Environmentally friendly disposal

5.1 Disposal and packaging

- The packaging of your unit consists of materials that are necessary to guarantee effective protection during transport. These materials are fully recyclable and therefore reduce the environmental impact. Dispose of the packaging in a bin for recyclable materials.

5.2 Disposal of old equipment

- Old appliances must be disposed of in accordance with the guidelines and regulations of the local waste disposal authority. Check with your local administration for the address of the nearest recycling centre and deliver your appliance there.

The symbol of the crossed-out dustbin on a Waste electrical or electronic equipment indicates that it must not be disposed of with household waste at the end of its life. Collection points for waste electrical and electronic equipment are available free of charge in your area. You can obtain the addresses from your city or local government. You can find out about other return options created by us on our website www.arebos.de.

The separate collection of Waste electrical or electronic equipment is intended to enable the reuse, recycling or other forms of recovery of Waste electrical or electronic equipment and to avoid the negative consequences of disposal on the environment and human health.

Notes on battery disposal

The symbol of the crossed-out dustbin on batteries or accumulators indicates that they must not be disposed of with household waste at the end of their service life. If batteries or accumulators contain mercury (Hg), cadmium (Cd) or lead (Pb), you will find the respective chemical symbol below the symbol of the crossed-out trash can. You are legally obliged to return old batteries and accumulators after use. You can do this free of charge in a retail store or at another collection point near you. Addresses of suitable collection points can be obtained from your city or local government.
