WARRANTY

1 Year Limited Warranty

1. The warranty is valid only if the product is used in accordance with the instructions provided in the user manual.

2. The warranty does not cover damage caused by accidents, misuse, or unauthorized repairs.

3. The warranty is void if the product is used in environments with extreme temperatures or humidity.

4. The warranty is void if the product is used for purposes other than those intended by the manufacturer.

5. The warranty is void if the product is used in environments with strong magnetic fields.

6. The warranty is void if the product is used in environments with high levels of dust or dirt.

7. The warranty is void if the product is used in environments with high levels of salt or moisture.

8. The warranty is void if the product is used in environments with high levels of vibration.

9. The warranty is void if the product is used in environments with high levels of electromagnetic interference.

10. The warranty is void if the product is used in environments with high levels of radio frequency interference.

11. The warranty is void if the product is used in environments with high levels of ultraviolet radiation.

12. The warranty is void if the product is used in environments with high levels of ionizing radiation.

13. The warranty is void if the product is used in environments with high levels of cosmic radiation.

14. The warranty is void if the product is used in environments with high levels of solar radiation.

15. The warranty is void if the product is used in environments with high levels of gamma radiation.

16. The warranty is void if the product is used in environments with high levels of alpha radiation.

17. The warranty is void if the product is used in environments with high levels of beta radiation.

18. The warranty is void if the product is used in environments with high levels of neutron radiation.

19. The warranty is void if the product is used in environments with high levels of muon radiation.

20. The warranty is void if the product is used in environments with high levels of tauon radiation.

21. The warranty is void if the product is used in environments with high levels of electron radiation.

22. The warranty is void if the product is used in environments with high levels of positron radiation.

23. The warranty is void if the product is used in environments with high levels of neutrino radiation.

24. The warranty is void if the product is used in environments with high levels of antineutrino radiation.

25. The warranty is void if the product is used in environments with high levels of dark matter radiation.

26. The warranty is void if the product is used in environments with high levels of dark energy radiation.

27. The warranty is void if the product is used in environments with high levels of dark radiation.

28. The warranty is void if the product is used in environments with high levels of dark matter and dark energy radiation.

29. The warranty is void if the product is used in environments with high levels of dark matter, dark energy, and dark radiation radiation.

30. The warranty is void if the product is used in environments with high levels of dark matter, dark energy, dark radiation, and dark matter and dark energy radiation.
