Caractéristiques:  
KIT DE CABLAGE COMPLET POUR AMPLIFICATEURS

Spezifikationen:  
KOMPLETTER VERSTÄRKER ANSCHLUSS KABELSATZ

### WARNING

Installation requires special knowledge. Do not install the caraudio equipment on your own. For safe and secure installation consult your caraudio dealer. Installation can only be during idle status. For example, disconnect the battery from the car's electrical system. Also take in notice the car's manufacturer requirements.

- Never use bolt or nuts from the car's safety devices for installation. If bolt and nuts from the steering wheel, brakes or other safety devices are used for the caraudio installation, a fire or an accident may be caused.
- Use this cable kit only for cars with a DC 6V/12V/24V, ground negative. This kit cannot be installed in vehicles using a battery with more than 24V. If a battery with more than 24V is used, a fire or accident may be caused.
- Avoid installing the kit in following places:
  - Where it would hinder your safe driving.
  - Where it could damage the car's fittings.
