

Bluetooth Remote Instructions

1. Turn on the bluetooth remote by switching the on/off switch to the "on" position.
2. Turn on your phone's bluetooth, and connect it to "AB Shutter 3" when it shows up in the bluetooth devices list.
3. Open your phone's camera.
4. Use the correct remote button for IOS or Android devices.
5. For photos, go into Camera-photos in your phone and press the respective button.
6. For videos, go into Camera-videos in your phone and press the respective button.

Please note: Some Android users may experience camera zooming when pressing the button on the bluetooth remote. If so, adjust your smartphone's camera settings by changing the "Volume Key" setting to "Camera." Refer to your smartphone manual for assistance.

Important note: Please note that only one phone can be connected to the bluetooth remote at a time!
