Resolution: 1200-2400-3200-6600-9600-12000dpi
Number of keys: 7 keys programmable
Windows Vista, Win7/8/10/11, ac OS X10.5 or Later

Installation and use steps: (lower schematic)

Wired connection: Insert the mouse USB cable into the USB port of the computer. The data cable Type-C interface can be directly used when the mouse is inserted. Wired is preferred in Bluetooth, 2.4G, Off 3 segments.

2.4G connection: Plug the 2.4G receiver into your computer. Turn the power switch at the bottom upward to 2.4G. Use it directly. (If the left, middle and right are not connected, press the 3-second indicator light to flash yellow for code)

BT5.1 connection: Turn down the power switch at the bottom of the mouse to the BT state and hold down the DPI key for 3 seconds. The blue light of the key indicator blinks for BT code matching. Search the Bluetooth name (BT5.1 Mouse) for the computer connection code.
