Promotes Good Night Sleep

Our warm, amber light helps promote the production of melatonin at night, so that you can sleep better without getting fatigued.

No More Eye Strain

The reading light has 3 different modes: Amber (1600k), Warm (3000k) and Natural (5000k). Choose the one as you like freely.

Bright As You Need

The reading lamp has 7 evenly spread LED beads. No flickering and no dazzling. 3 brightness levels adjustable from high to low.
