

heer. ... paniek, gebruik je energie/kracht verstandig.

Zon slijtage

Nooit je board onder geen enkele omstandigheid op een hete plek zetten/le
bubbels in je board veroorzaken. Ook de hete kofferbak etc. doen je board g

Safety.

Do not board alone, have people checking on you. If you are caught in rip c
shore. Easiest way out te swim/padle across the rip, to one side of the rip. F
sea so if you try to move against it you will be exhausted and may get sucke
for a lifeguard. Try not to panic, this will make only tired.

Sun-damage.

Do not under any circumstances leave your board in any hot place, includin
out and bubble your board! also the hot boot of your car is not the place to
slices and delamination's repair directly, is not complicated.
