Product Application	Support any mobile phones with Bluetooth device, iPad and desktop computer. The desktop computer without Bluetooth function can be used by matching with the Bluetooth adaptor.		

Pairing and Connection

1. Keep the distance between the mobile phone and the headset within 1 m; the closer, the better.
2. Press and hold the key "■" for about 5 seconds, and then release it when the red and the blue lamps alternately blink. At this time, the headset has entered the pairing mode.
3. Enable the Bluetooth function of the mobile phone, search the Bluetooth equipment, select 'B39 ' for pairing and connection. After connection is successful, the blue indicating lamp of the headset slowly blinks.

Notes:

● The pairing mode will be maintained for 5 minutes. If pairing and connection are unsuccessful beyond 2 minutes, the headset will automatically switch to the stand-by mode.
● After pairing is completed, the headset and the handset will remember eachother, without pairing.
