

# 8K Ultra Speed HDMI Cable

## Spec Sheet:

Connectors	* 24K gold plated
	* Aluminum Alloy Shell
	* Full Tinplate Shielding plug
	* Type A Male to A Male
Cable	* Length:1.2m, 2.0m,2.5m
	* PVC jacket
	* With Nylon mesh
Specifications	* AWG: 30AWG(1/0.254BC)
	* Bare Copper Conductor
	* Triple shielding
	* <b>2.1Version HDMI cable</b>
	* OD: 6.5MM

Supports	* 8K resolution * 48Gbps * EARC * 3D * Dynamic HDR
----------	--

## Features:

- **Backward compatible**  
The latest HDMI standard offers a range of new functions, while the old functions are still fully supported. The only exception: the Ethernet channel was omitted.
- **Universal interface**  
The connector has not changed with the version update. You can use the cable with all HDMI devices.

- **8K – Tangible reality on screen**  
The 48G bandwidth has almost tripled the previous bandwidth of 18G. This creates new possibilities such as the 8K resolution @60 Hz or 4K @ 120 Hz (and higher).
- **One cable – all applications**  
The 48G Ultra High Speed HDMI cable transfers high resolution video and audio signals and takes on control functions within your system.
- **8K HDMI Video Resolution**  
Higher Video resolution support a wide range of high resolution and faster refresh rates including 8K@60HZ,4K@120HZ.

- **48Gbps Transfer Speed**  
The Ultra high speed HDMI Cable supports the 48Gbps bandwidth. It features exceptionally low EMI which reduces interference with nearby wireless devices.
- **Dynamic HDR**  
It ensures every moment of a video is displayed at its ideal values for depth, detail, brightness, contrast and wider color gamut.
- **eARC**  
It simplifies connectivity, provides greater ease of use, and supports the most advanced audio formats and highest audio quality.
