(Notice: The machine still works normally even in the reminder of replacing filter.)

09

## Works With Smart Life APP

### Download & Registration

- Scan the QR code to download "Smart Life" APP. You can also search "Smart Life" in either APP store or Google Play to install the APP.

- Open the "Smart Life" APP, tap "Register" to register a "Smart Life" account with your phone number or E-mail. Then sign in the APP.
- Open the "Smart Life" APP, click "add device" or tap "+" on the top right corner of the APP homepage. There are two methods to enter the page of "add device" - Add WiFi manually or search for the devices automatically.

In the homepage of add device manually, choosing any one of product rang to enter a new homepage and ensure the indicator light flash quickly.

The devices provide two configuration methods. In the homepage of Easy mode, tap "Other methods" on the top right corner to enter Easy mode and AP mode, then could choose one of mode to connect with WiFi.

10

## Add Devices in Easy Mode(Recommend)

Make sure your smart device is energized and your mobile phone is connected to your WiFi network. If the WiFi indicator of smart device do not flash, please press the WiFi button for more than 5 seconds until the indicator light keeps flashing quickly, it means the devices is ready for configuration.

Tap "+" on the top right corner of the APP, select type of service device and click it. When appearing "Add 1 device successfully", it means the connection is completed and your device will be listed in your APP list.

### Add Devices in AP Mode

- If failed in Easy Mode, users could also add devices in AP Mode.
- Press the WiFi button for more than 5 seconds until the WiFi indicator light begin to flash slowly, it means the device is already for configuration in the AP Mode.
- Tap "+" on the top right corner of the APP. Select AP mode and tap it. Then tap "Ensure the indicator flash slowly". Then tap "Connect now" to go to the WLAN Settings interface in your mobile phone and select the WiFi network named "Smart Life\_XXXX" to connect it.
- Return to the "Smart Life" APP, the connection will start automatically.
- When appears "Add 1 device successfully", it means the connection is completed and your device will be listed in your APP list.

Now you can control your smart device via your mobile phone APP anytime and anywhere (Make sure your mobile phone and smart device are all connected to the network, and to change the router name into Smart Life XXX).
