

# BOOX Mira 护眼墨水屏显示器使用指南

## 一. 如何与电脑连接?

### • TypeC接口连接方式

使用随机附赠的双TypeC线与电脑全功能

TypeC接口进行连接。(如右图所示)

★注意: 电脑需要带有“全功能TypeC接口或者

雷电3及以上接口”, 非全功能TypeC接口不支持视频输出。

### • HDMI高清接口连接方式

使用随机附送Mini HDMI数据线、自备普通的Type-C数据线

将Mira与台式电脑或笔记本电脑相连。(如左图所示)

★注意: USB-C数据线为传输电力以及触摸信号。

## 二. 电脑客户端软件

软件默认内置了4种刷新模式

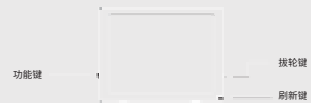

- **极速模式:** 适合日常电脑操作, 浏览网页 日常软件使用。
- **文字模式:** 适合专注打字, 文字输入录入。
- **图像模式:** 适用于图片浏览, 观看照片, 可以设定定时刷新页面。
- **视频模式:** 适用于观看视频, 网课等动态播放。

除了上述4种内置模式外, 您还可以进行根据自己的使用场景创建自己的模式。

## 1. How to Connect to a Computer

### • Connect via a Type-C interface

Use the supplied Type-C cable to connect to a full-featured Type-C interface of your computer.

(As shown on the right)

★ Notice: The computer needs to have a "full-featured Type-C interface or Thunderbolt 3 and above interface".

The non-full-featured Type-C interface does not support video output.

### • Connect via HDMI High-Definition interface

Use the supplied Mini HDMI cable and normal Type-C cable to connect Mira to a computer. (As shown on the left)

★ Notice: The normal Type-C cable is used to supply power and transmit touch signals.

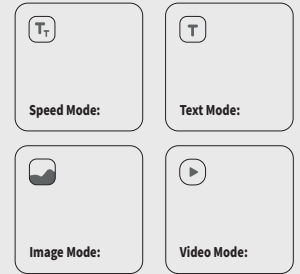

## 2. Software on Computer Client

There are 4 default Refresh Modes:

- **Speed Mode:** suitable for daily computer use, web browsing, and daily software use.
- **Text Mode:** suitable for typing and text input.
- **Image Mode:** suitable for browsing and viewing images. You can set the Refresh timer.
- **Video Mode:** suitable for dynamic playback such as watching videos and online courses.

In addition to the 4 default Refresh Modes, you can create your own Refresh Modes according to your personal preferences.

Software Download: <https://www.boox.com/support/>

## 3. Physical Button Function

### - Function

- Switch between Contrast, Cold & Warm Light, Speed, and Refresh Modes by pressing this button

### - Scroll Wheel

- Scroll up and down to adjust Contrast, Cold & Warm Light, Speed, and Refresh Modes

### - Refresh

- Fully refresh the screen
