STOP IMPORTANT SAFEGUARDS

- 1 **WARNING – TO REDUCE THE RISK OF BURNS, ELECTROCUTION, FIRE, OR INJURY TO PERSONS:**
 - 2 Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by Remington®.
 - 3 Do not use this product if it is not working correctly, if it has been dropped or damaged, or dropped in water.
 - 4 An appliance should never be left unattended when plugged in to a power outlet, except when charging.
 - 5 Keep the power plug and cord away from heated surfaces.
 - 6 Make sure the power plug and cord do not get wet.
 - 7 Do not plug or unplug the appliance with wet hands.
 - 8 Do not use the product with a damaged cord. A replacement can be obtained via our International Service Centres.
 - 9 Do not twist or kink the cable, and don't wrap it around the appliance.
 - 10 Store the product at a temperature between 15°C and 35°C.
 - 11 Only use the parts supplied with the appliance.
 - 12 The appliance, including its cord, must not be used, played with, cleaned or maintained by persons under eight years old and should at all times be kept out of their reach.
 - 13 Use, cleaning or maintenance of the appliance by children over eight or by anyone with a lack of knowledge, experience or with reduced physical, sensory or mental capabilities should only be undertaken after receiving appropriate instruction and under the adequate supervision of a responsible adult to ensure that they do so safely and that the hazards involved are understood and avoided.
-  Suitable for use in a bath or shower.

| 6 Fuel gauge (XR1350) | 14 Cleaning brush |
| 7 LED display (XR1370) | 2 year guarantee |
| 8 Detail trimmer | |

GETTING STARTED

For best shaving performance, it is recommended that you use your new shaver daily for up to four weeks to allow time for your beard and skin to become accustomed to the new shaving system.

* CHARGING YOUR SHAVER

- Ensure the appliance is turned off.
 - Connect the charging stand to the adaptor and then to the mains.
 - Place the shaver in the charging stand.
 - Charge for at least 24 hours when using for the first time.
 - Allow 90 minutes for a full charge. The charging indicator light (XR1330), fuel gauge (XR1350) or LED display (XR1370) will indicate when the shaver is fully charged.
 - To preserve the life of your batteries, let them run out every 6 months then recharge for 24 hours.
 - The shaver automatically adjusts to a mains voltage between 100V and 240V.
-  This appliance should be charged by approved safety isolating adaptors PA-0510E(K) with the output capacity of 5.0 dc; 1.0A.

HOW TO USE

* SHAVING

- Note: This shaver is for cordless use only.
- Make sure your shaver is properly charged.
 - Switch the shaver on.
 - Stretch the skin with your free hand so the hairs stand upright
 - Only apply light pressure on the shaving head while shaving (pressing too hard can damage the heads and make them vulnerable to breakage).
 - Use short, circular strokes.

* SHAVING WITH SHAVING GEL

- Follow the same instructions as dry shaving if using with gel.
-  **CAUTION:** After use with shaving gel, please rinse the head and cutters under warm water to clean away any excess gel and debris.

* TRIMMING

- Push the trimmer button to release the detail trimmer.
- Hold the trimmer at right angles to the skin.
- Place the trimmer at desired trim line for a quick, easy, professional trim.
- To retract and switch off the trimmer, push the trimmer down and lock into place.

► Tips for best results

Use moderate to slow stroking movements. The use of short circular motions in stubborn areas may obtain a closer shave, especially along the neck and chin line.
DO NOT press hard against the skin in order to avoid damage to the rotary heads.

CARE FOR YOUR SHAVER

Care for your appliance to ensure a long lasting performance. We recommend you clean your appliance after each use. The easiest and the most hygienic way to clean the appliance is by rinsing the appliance head after use with warm water.

* CLEANING

- Ensure the shaver is switched off.
- Hold the head and gently pull up on the ribbed area to remove the hairpocket from the head.
- Slide the cutter locking mechanism to remove the cutters.
- Tap out excess hair shavings and use a cleaning brush if necessary.
- Close head assembly.

* CLEANING TRIMMER

- Lubricate the teeth of the trimmer every six months with a drop of sewing machine oil. Replacement parts and accessories available to buy at www.remington.co.uk/ parts-accessories.

► TROUBLESHOOTING

If your shaver battery is completely empty or the shaver has not been used for an extended period of time, the shaver may not start when operated using the cord. If this occurs, charge the shaver for approximately 15 sec. before shaving.

ENVIRONMENTAL PROTECTION

To avoid environmental and health problems due to hazardous substances in electrical and electronic goods, appliances marked with this symbol must not be disposed of with unsorted municipal waste, but recovered, reused or recycled.

BATTERY REMOVAL

- Unplug the shaver.
- Run shaver until the motor stops.
- Remove the head from the shaver (Pull head up and off).
- Using a small screwdriver, pry the 'collar' off of the top of the handle.
- Using a small screwdriver, pry the front cover from the body.
- Remove three screws located on front of shaver.
- Using a small screw driver, pry up the newly unsecured inner housing to expose the battery.
- Pry battery free from circuit board.
- Dispose of battery properly.

SERVICE AND GUARANTEE

Defects affecting product functionality appearing within the guarantee period will be corrected by replacement or repair at our option provided the product is used and maintained in accordance with the instructions.

Defects from repair by an unauthorized dealer are not covered.
Consumables are excluded.

Your statutory rights are not affected.

If you call the Service Centre, please have the Model No. to hand, as we won't be able to help you without it. The Model No. can be found on the rating plate of the appliance.
