

Home / HDMI CABLES / ARRAN CABLE HDMI

< Prev | Next >

The NorStone Arran HDMI cable was developed to meet the requirements of the HDMI 2.0 and HDMI ARC standard. It is therefore compatible with the transport of UHD/4K 60Hz HDR video streams (2.0b=18g/sec, if length less than 5m), Full HD or 3D, as well as 7.1 audio streams in high definition or Dolby Atmos.
