Manual

Size: Ø146*H28
 Weight: 175g
 Material: ABS
 Battery capacity: 2000mAH
 Product power: 3W
 Input (USB-C) : DC5V/2A
 Input (Solar) : 5V/0.25A
 Output (USB-A) : DC5V/2A

Touch Switch

- ① One touch to turn it ON or OFF.
- ② Brightness: Touch and hold the switch to adjust the brightness. Lift your finger when it reaches your desired brightness.
- ③ Night Mode: Double-touch the switch to change the SolarDisc to night mode. In night mode, the light will turn ON/OFF automatically according to the ambient light levels.

Solar Charging

Whenever there is sunlight, LightDisc can be charged anywhere. The micro suction tape on back allows you to stick your LightDisc to a window, so even while you're indoors you can recharge your battery.

Sticky-Pad

The micro suction tape is strong and reusable. Simply wipe it with a damp cloth to remove the dust and it will work as good as new.
