Reliable Storage for Photos and More

Lexar® SDHC™/SDXC™ cards greatly increase the storage capacity of your point-and-shoot digital camera or other device. The cards are available in capacities from 4GB-64GB.

Do More with Your Digital Device

Enhance Your Digital Experience. Designed for use with digital cameras or other devices, Lexar SDHC/SDXC cards give you the capacity and power to capture more of what matters, allowing you to save and store your vacation photos, favorite songs, and video clips from last weekend's soccer game. For photo enthusiasts and those interested in safely storing precious memories, using high-capacity Lexar SDHC/SDXC cards mean you always have the extra storage capacity to capture that perfect moment.

The Brand Trusted by Professionals. Lexar is the brand trusted by professional photographers. This means you can snap and store photos with confidence, knowing your Lexar memory card is delivering the performance and reliability your memories deserve. Lexar SDHC/SDXC cards also have a built-in erasure prevention switch to ensure that your files can't be accidentally deleted or overwritten. Providing reliable high-capacity storage, Lexar SDHC/SDXC cards are an excellent solution to your storage needs.

Lexar Performance, Quality, Compatibility, and Reliability. All Lexar memory card, card reader, and USB flash drive product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability. This provides customers with a high level of confidence when using Lexar products to capture, manage, move, and store the memories that matter.

Lexar offers a comprehensive line of innovative, award-winning memory products in several categories, including memory cards, card readers, and USB flash drives. With so many options, it's easy to find the right Lexar solution to fit your needs.

Lexar. When Memory Matters.™

Some of the listed storage capacity is used for formatting and other purposes and is not available for data storage. 1GB equals 1 billion bytes. For more information, go to www.lexar.com/capacity.
