Dear user

Thank you for choosing the **REDRAGON** brand. To protect your rights and to better customer service, we ask that you note our warranty rules.

1. Within 18 months of purchase date, repair or replacement is guaranteed for failure due to electrical circuit problems. Man-made damages, such as disassembly, hard impacts, submergence into water, plugging into improper current or voltage, and damage caused by natural disasters such as fire, flood, or earthquake are not included.
2. Consumable parts such as mouse feet and spare parts replacement are not included in our warranty.

S.O. support

Windows: 8/11/12/13/14/15/16/17/18

Keys Instructions

1. The LFK and right keys
2. Scroll button. The scroll button is the function of the visible button.
3. Supports 4 resolution speeds. When the DPI button is pressed, the mouse DPI resolution will switch among four gears (800/1600/3200/6400), and the mouse movement speed will change simultaneously.
4. Two side keys. Default function is forward/backward.

Light instructions

The mouse is bright when working. Every time the DPI button is pressed, the mouse will change to a different color. LED lights will be speed up or long as DPI level gear higher. The corresponding visible LED light speed and DPI gear are as follows:

1. LED lights speed level 1—4000PM
2. LED lights speed level 2—2000PM
3. LED lights speed level 3—1600PM
4. LED lights speed level 4—3200PM

Counterbalance Instructions

Both in counterbalance, which not easy up to 8 balance weight, user can adjust the margin by adding or reducing the counterweight.

Software Instructions

User can adjust the following settings through the software after downloading and installing it.

1. Adjust the DPI of the mouse at the user's direction. Speed range: 400-3200DPI.
2. Macro: Record up to 30 actions and trigger with one key.
3. Continuous keystroke function: Set the number of clicks and delay time.
4. Customize 4 mouse buttons.
5. Set 4 different user modes and switch between them with the button on the bottom of the mouse.

FAQ

1. If the mouse is not responding, please check whether the mouse is plugged correctly in the corresponding computer USB port, or try another USB port.
2. If the mouse is moving slowly, jumping, or drifting, please try another surface. Surfaces that are dark, dry, too flat or bright may affect the performance of the mouse. Use of a mouse pad is strongly recommended.
