# ATAB701 Manual

## Index

# 1. Intended use

The ATAB701 is a tablet PC for children, designed for playing and managing media files, running applications and browsing the Internet. The device is fitted with a touch screen, USB and Micro SD Memory Card Slot. The device can be connected to a PC.

# 2. Safety

## 2.1. Labels in this manual

⚠️

WARNING A warning means that injury or death is possible if the instructions are not obeyed.

⚠️

CAUTION A caution means that damage to the equipment is possible.

ℹ️

A note gives additional information, e.g. for a procedure.

## 2.2. General safety instructions

⚠️

WARNING Do not use the tablet while driving a vehicle or while walking.

⚠️

WARNING When using the headphones pay attention to the volume level. Too high sound levels can cause hearing loss. Therefore, set the volume of the player at a moderate level and limit the time of use.

⚠️

CAUTION Do not suddenly disconnect the tablet during formatting or uploading and downloading. This can result in program errors and a non-functional product.

⚠️

CAUTION Do not try to disassemble this device and do not use alcohol, thinners or petrol to clean the surface of the device.

⚠️

CAUTION This tablet is neither moisture nor water resistant. Not to be used in a damp environment.

⚠️

CAUTION Do not drop the tablet or hit it against a hard surface, as this may damage the screen.

⚠️

CAUTION Do not spill any liquid on the appliance.

ℹ️

Caution! The new battery performs best after it has been fully charged and discharged 2-3 times.

ℹ️

This appliance is double insulated; therefore no earth wire is required. Always check that the mains voltage corresponds to the voltage on the rating plate.

# 3.Preparations for use

## 3.1. Unpacking

- Unpack the appliance carefully.
- Check the package contents as described below. If any item is missing, please contact your reseller.
- Remove the labels from the front panel carefully if present.

ℹ️

We recommend that you retain the original carton and packing materials in case it ever becomes necessary to return your product for service. This is the only way to safely protect the product against damage in transit. If you do dispose of the carton and the packing materials, please remember to recycle with due care to the environment.

## 3.2. Package contents

The following items are included in the received package:
1 x ATAB701 kids tablet
1 x Micro USB cable
1 x Adapter
1 x Earphones
1 x Quick start guide

ℹ️

If any item is missing, please contact your reseller.
# 4.For use

## 4.1. Charging

To charge the battery, connect the adapter to the DC power connector of the device and to the power supply. Charge the battery at least 12 hours before first usage.

## 4.2. LED Indication

Blue LED: Power is switched on
Red LED: Product is charging
Red LED will change to blue LED: Product is fully charged

## 4.3. Connecting peripherals

14. 3.5 mm headphones jack
15. Reset opening

## 5.2. Selection of icons on your tablet

This chapter contains a selection of icons you will come across when using your tablet. These symbols are regularly referred to further in the manual.
Return to the previous screen.
To the start screen of the "children" mode.
In Android Operating System, you can view and turn off all active applications here.

Turn the volume up or down.

A USB device is connected to the tablet.

Time display.

Display of the WiFi connection.

Display of the battery status.

# 6.Use

## 6.1. Using the on/off button

*Turning on the product*
- Press and hold the ON button for 3 seconds when the product is turned off.
- After starting your tablet, drag the padlock icon to the open lock symbol. The splash screen appears.

*Turning off the product*
- If the product is turned on, and not in sleep mode, press and hold the ON button for 3 seconds. The "Turn off" message appears.
- Press OK to turn off the product.

## 6.2. Locking / unlocking the screen (sleep mode)

*Unlocking the screen*
- Press the ON button to make the screen visible.
- Slide the lock symbol with your finger in the direction of the open lock symbol. The screen has now been unlocked.

*Locking the screen*
- If the product is on, press the ON button once. The screen dims and is locked.

## 6.3. Splash Screen

In the splash screen you can log in as a parent in the "Parents" mode, or as a child in the "Children" mode.

In the "Parents" mode you can adjust settings such as passwords (section 6.4).
The "Children" mode allows you to work with all applications (section 6.5).

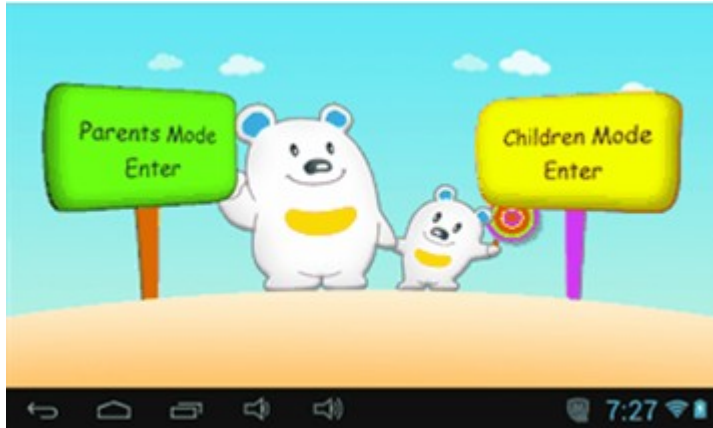

## 6.4. "Parents" mode (for parents)

## 6.4.1 Log in to tablet

- Press "Parents Mode Enter" in the Splash Screen if you have not done so yet.

- Press one of the four boxes under "Enter Passcode" and enter the pass code. The pass code is preset to 8888.
- Press [✓] next to "Show Passcode" to display the pass code. If the pass code is entered correctly, [✓] will be displayed. If the pass code is entered incorrectly, [✓] will be displayed.
- To return to the previous screen, press [✗].

When the correct pass code has been entered the following screen appears.

A1 Children Mode: Here you can log in as a parent to the Children Mode. Go to Subsection 6.4.2 for more details.
A2 Parents Setting: Here you can manage settings as a parent. Go to subsection 6.4.3 for more details.
A3 Android Operating System (OS): Here you can use the tablet in the "Parents" mode. Go to section 6.6 for more details.

### 6.4.2 Log in as a parent to the "Children" mode

- Press one of the four boxes under "Enter Passcode" and enter the pass code. The pass code is preset to 8888.

- Press ✔ next to "Show Passcode" to display the pass code. If the pass code is entered correctly, ✔ will be displayed. If the pass code is entered incorrectly, ✔ will be displayed.

- To return to the previous screen, press ✖.
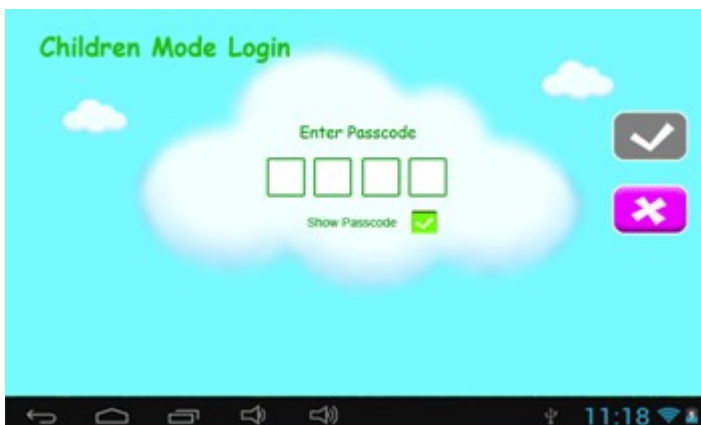

When the correct pass code is entered the "Children" mode screen appears.

### 6.4.3 Manage Settings
- Log in as a parent and press the "Parents setting" button (go to section 6.4 "Parents" mode for more details). The following screen appears:

Power off time setting: Here you can set the tablet to turn off after a certain period of time. Go to subsubsection 6.4.3.1 for more details.
Display brightness setting: Here you can adjust the brightness of the screen. Go to subsubsection 6.4.3.2 for more details.
Apps Manage: Here you can set which Apps your children may use. Go to subsubsection 6.4.3.3 for more details.
Parents Passcode Manage: Here you can change the pass codes for the "Parents" mode. Go to subsubsection 6.4.3.4 for more details.
Children Passcode Manage: Here you can change the pass codes for the "Children" mode. Go to subsubsection 6.4.3.5 for more details.

### 6.4.3.1 Setting the period after which the tablet turns off

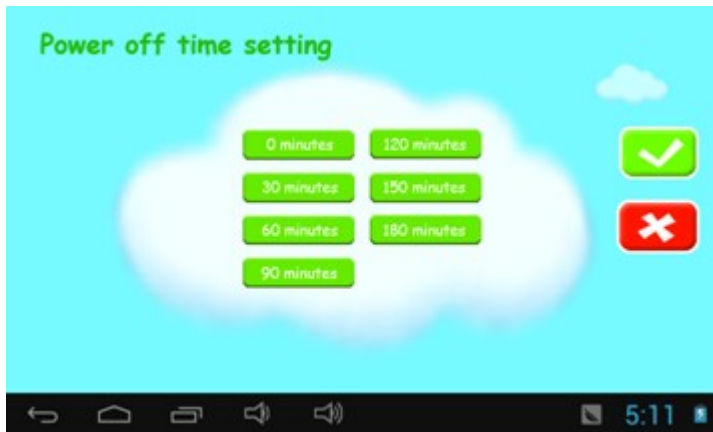

- Press the time after which you want the tablet to turn off automatically. This time can be set between 0 and 180 minutes.
- Press ✓ to confirm your selection.
- To return to the previous screen, press ✗.

### 6.4.3.2 Setting the brightness of the screen

- By sliding the blue dot the brightness of the screen changes. Slide the blue dot to the right to make the screen brighter and slide the blue dot to the left to make the screen less bright.
- Press ✓ to confirm your choice and to return to the previous screen.

### 6.4.3.3 Manage Applications

- Press the box behind the name of the App to make it available or not available to your child. When a box is checked, your child can use the App in the "Children" mode.
- Drag your finger inside the two black bars from the bottom up to view the rest of the Apps in the list.
- Press ☑ at the bottom of the list to confirm your choice and to return to the previous screen.

Selected Apps can be found under the button  on the "Children mode" screen. Go to subsubsection 6.5.2.5 for more information about this button.

### 6.4.3.4 Change pass codes for the "Parents" mode
*First time changing the pass code*

- Enter the default pass code 8888 at "Enter Old Parents Passcode". Press one of the boxes to bring up the keyboard.
- Enter the new pass code at "Enter New Parents Passcode" and at "Re-enter New Parents Passcode".
- Think of a Reset Code and enter it at "Enter Reset Code" and at "Re-enter Reset Code".
- Press ☑ to confirm your choice and to return to the previous screen.

⚠

Caution! Keep the Reset Code in a safe place, you will need it if you do not remember the pass code for the "Parents" mode.

*Changing the pass code when it has been set before*

- Enter the pass code (you have chosen) at "Enter Old Parents Passcode". Press one of the boxes to bring up the keyboard.
- Enter the new pass code at "Enter New Parents Passcode" and at "Re-enter New Parents Passcode".
- Think of a Reset Code and enter it at "Enter Reset Code" and at "Re-enter Reset Code".
- Press ✓ to confirm your choice and to return to the previous screen.

*Forgotten the pass code*

- Press "Forgot Passcode?" The following screen opens:

- Enter the reset code, press one of the boxes to bring up the keyboard.
- Press ✅ to confirm your selection. The following screen appears:

The pass code has been reset to the default code 8888.

*Forgotten the Reset Code*
If you have forgotten the Reset Code, you need to contact the AKAI helpdesk.

*Changing the Reset Code*

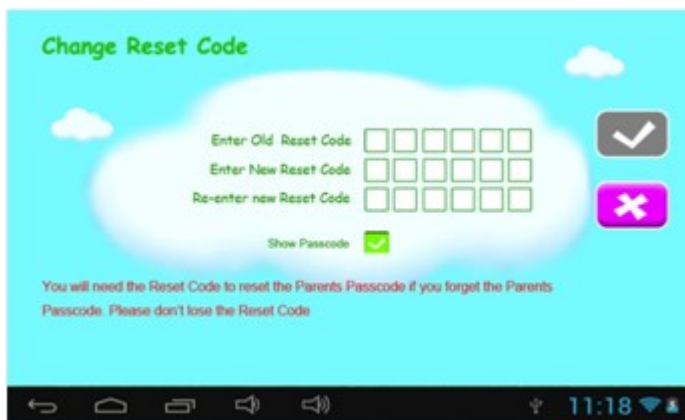

- Enter the Reset Code (you have chosen) at "Enter Old Reset Code". Press one of the boxes to bring up the keyboard.
- Enter the new Reset Code at "Enter New Reset Code" and at "Re-enter New Reset Code".
- Press ✅ to confirm your choice and to return to the previous screen.

### 6.4.3.5 Change pass codes for the "Children" mode
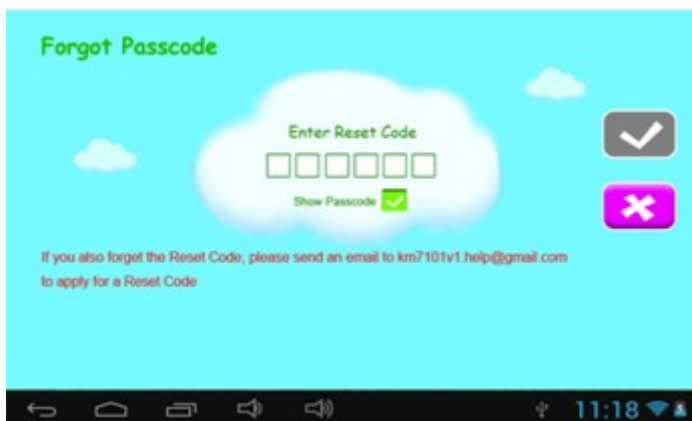

*Changing the pass code*
Since you are logged in to the "Parents" mode, you can directly change the pass code.
- Press ✅ to confirm your choice and to return to the previous screen.

*Changing the pass code*
Use the pass code of your "Parents" mode to change the pass code of the "Children" mode.
- Press ✅ to confirm your choice and to return to the previous screen.

## 6.5. "Children" mode (for children)

- Weight: 310g

# 8.Cleaning and maintenance

⚠

WARNING Before performing any cleaning or maintenance, switch off and unplug the appliance. Clean the outside of the appliance with a soft cloth. When the appliance is very dirty, dampen the cloth slightly with water and a neutral solution.

Clean the screen with a microfibre cloth and suitable screen spray.

# 9.Disposal of used electric and electronic equipment

The meaning of the symbol on the material, its accessory or packaging indicates that this product shall not be treated as household waste. Please, dispose of this equipment at your applicable collection point for the recycling of electrical and electronic equipments waste. In the European Union and Other European countries which there are separate collection systems for used electrical and electronic product. By ensuring the correct disposal of this product, you will help prevent potentially hazardous to the environment and to human health, which could otherwise be caused by unsuitable waste handling of this product. The recycling of materials will help conserve natural resources. Please do not therefore dispose of your old electrical and electronic equipment with your household waste.

For more detailed information about recycling of this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

For more information and warranty conditions, please visit: www.akai.eu

Do not dispose of batteries as household waste but take them to a battery recycling facility.

# 10.Solving problems

*1. Tablet does not turn on*
- Check the battery status, charge if necessary before starting the tablet.
- If you are still unable to turn on your tablet, you can try to reset it.

*2. No sound from headphones*
- Check whether the sound is off or set to "0". Try another set of headphones to make sure your current set is not broken.

*3. Loud noise*
- Check if there is dust in the headphones or the loudspeaker. Check if the music file you want to play is damaged.

*4. Tablet freezes and does not respond*
- Use a pointed object to reset your tablet and to start the tablet again. The reset button is located on the back of the tablet.

*5. Screen Deviations or screen does not respond*
- Re-start the tablet.

*6. Application does not work*
- Possible causes are that this App is not compatible with Android or the downloaded file is corrupted.
